ARIZONA STATE UNIVERSITY

April 2, 2012 (emailed to all proposers on this date)

ADDENDUM # 1
RFP #111206

eRecruitment and Onboarding

Please note the following answers to questions that were asked prior to the deadline for inquiries date of April 4, 2012 .

Question

Q1: Is your RFP available in MS Word format? If so, please provide.

A1: The RFP can be provided in Word Format upon request, but there can be no changes or alterations to the RFP Document or it's language.

Q2: Is joint tenancy a mandatory requirement for both the eRecrutment and Onboarding SaaS solutions?

A2: : We do not require joint tenancy on the vendor's system, meaning the data can be shared on the same hardware with other clients as long as there are security and audit safeguards in place. However, we do require that the proposed solution address both eRecruitment and onboarding.

Q3: Would you consider a proposal for Onboarding and I9/eVerify alone with the ability to interface to all other relevant systems within your environment?

A3: No, we want the proposal to address both eRecruitment and onboarding.

Q4: Regarding fingerprinting: Do you just need notifications and orchestration around the process of fingerprinting or do they need some type of integration to the vendor?

A4: Notifications and orchestration around the process is fine.

Q5: Understanding that our response to this RFP would be focused on integration with prime SaaS solutions and also on our own integrated, on-premise Onboarding solution for PeopleSoft, would that meet ASU's requirements and expectations for due consideration?

A5: For this RFP, we would not consider the non-SaaS solution.

If you have any questions regarding this notice, please contact me at 480.965.8860 or Stacie.malekooti@asu.edu.

Thank you,
