

Good for thinking  
teamwork sharing  
Good to grow

**SMART**  
Technologies  
www.smarttech.com

As educators like you work to integrate technology, digital content and pedagogy, schools are recognizing the value of SMART Board interactive whiteboards in the classroom. Students can use them to grow ideas through brainstorming, researching and collaborating. You can use them to encourage inquiry-based learning with digital content.

But growth doesn't have to come with steep learning curves. If you can use a computer, you can use a SMART Board interactive whiteboard.

Get the world's leading interactive whiteboard. It's good to grow.

The new SMART Board™ 600 series interactive whiteboard
