

**Dawn Cosgrove Greer, M.A.**

Senior Clinical Faculty Research Associate

Dawn Cosgrove Greer is a Clinical Associate Professor at the ASU infant Child Research Programs currently providing therapy and supervision for the toddler program and working on a variety of grants. She earned an M.A. in Speech and Language Hearing from the University of Kansas. Her professional interests include early childhood development, early intervention, and parent training as well as the supervision of future speech language pathologists. Dawn enjoys the unique and challenging work associated with the field of speech language pathology she encounters at the ICRP.
