

CePoD

Welcome to our Third Annual Summer Research Workshop Series!
Wednesdays 11:30am-12:30pm
Coor 5501

These sessions are designed to help SSFD faculty and students who are interested in demographic research keep in touch over the summer to share research ideas, discuss methodological or substantive research questions, and support one another in our research goals. Typically, each session attracts anywhere from 5 to 15 attendees, with a mix of faculty and graduate students.

Because we meet during the lunch hour—and it's summer—we provide hotdogs. Feel free to bring a drink or other accompaniments.

Date	Topics	Presenters
5/14/08	Introductions, brainstorming (conference papers, '08-'09 colloquia, research projects and proposals)	Scott Yabiku
5/21/08	Discussion of what should be the fundamentals of demographic training	Jennifer Glick and Sarah Hayford
