<b>FACILITY ROOM ACCOUNT</b>	<b>This table contains data about the room account assignments. Only rooms that have organized research activity will have an associated account.</b>
FACILITY CODE	Designation formerly known as building number. An example is 010 for Hayden Library.
ROOM	Official identifier of the room, typically room number.
ACCOUNT	Account number assigned to this room.
ACCOUNT DESCRIPTION	Description of this account.
FACILITY TYPE CODE	Code showing type of facility. Values are: B = building S = structure L = site A building is defined as a roofed, walled facility providing permanent shelter for persons, animals, or equipment. For example, the Computing Commons. A structure is defined as a physical facility other than a building providing support for ASU's programs and related activities. For example, a parking structure. A site is defined as an outdoor facility required by ASU for the performance of programs and related activities. For example, a sports field. The type is determined by the first character of the building code in the Facilities database. If the first character is an L then it becomes a site. If the first character is a P, R, or X, it becomes a structure. Otherwise, it is designated as a building.
FACILITY TYPE DESCRIPTION	Description of facility type code.
FACILITY COMMON NAME	Formerly known as building name. An example would be Hayden Library.
FACILITY ABBREVIATION	Formerly known as building code. An example would be LIB for Hayden Library.
