

## THE SPHINX CLUB

THE SPHINX CLUB, an organization of married women, is the youngest club on the campus. It was organized in October, 1927, to enable the thirty married women of the college to become better acquainted with each other.

At the meetings, which are held during the noon hour, a resume of one of the newest and best books is given. These books are then presented to the college library.

It is hoped that the Sphinx Club will in the future grow to be one of the most worth while organizations of the college.
