### 2.1 Definition

Before we look at academic integrity closer, let's look at the definition posted on the ASU website. It reads:

"Integrity is a **character-driven commitment to honesty**, doing what is right, and guiding others to do what is right.

Arizona State University students and faculty are expected to act with integrity in their educational pursuits."

## 2.2 Categories

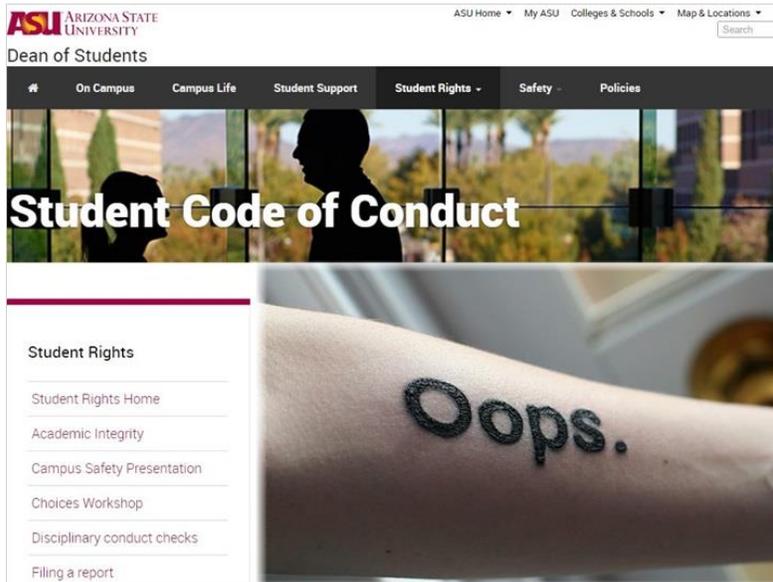

The ASU Provost's Website describes five broad areas of Academic Integrity. These are:

- Cheating on an academic evaluation or assignment
- Plagiarizing
- Academic deceit, such as fabricating data or information
- Aiding academic integrity policy violations and inappropriately collaborating
- Falsifying academic records

Be sure to review <https://provost.asu.edu/academic-integrity> for details about these.

## 2.3 Accidents Happen

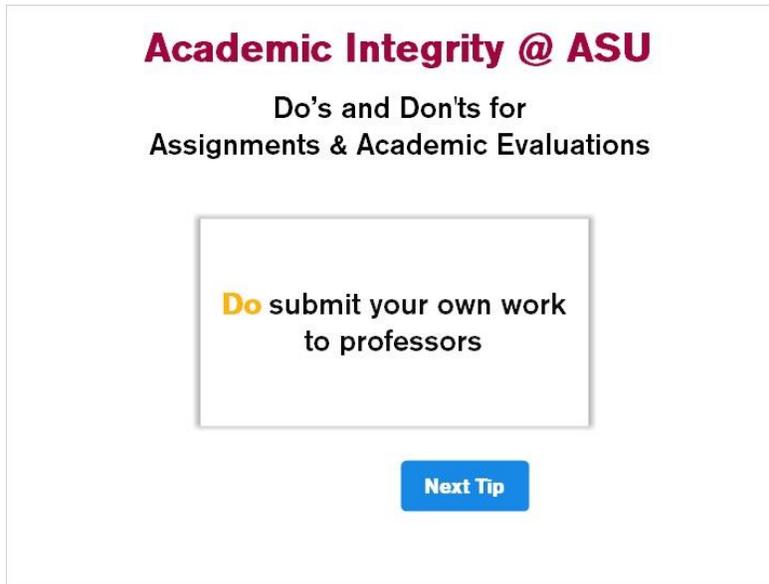

Most of the time, students accidentally violate academic integrity policies because they are new to the academic culture.

There are a range of consequences for academic dishonesty at ASU.

These include:

- receiving a reduced or failing grade for an assignment or course
- expulsion or temporary removal from a major or program of study within an ASU school or college
- getting an “XE” grade which is usually permanent on the student’s official transcript with the notation “failure due to academic dishonesty.”

All of these consequences can be avoided by making yourself more aware of academic integrity and how to practice it in your academic work.
