E-mail

Department Mission statement:

Program Mission statement:

Please complete the following for a single program objective. We recommend at least **three**, and no more than seven, program objectives. Programs with more than seven program objectives (such as those with a large number of mandatory objectives defined by an accrediting agency) should consider rotating subsets of those objectives across a multi-year cycle. The Office of University Evaluation can assist with this process.

Program Objective __ (*written in the form of an answer to, "What should program graduates know and be able to do?"*)

Measure __.1 (*at least two measures are required. At least one of those should be a direct measure. Additional measures are optional.*)

Measure __.2

Measure __.3 (*optional*)

Sampling for Objective __ (*How many students will be included and how will they be selected?*)

How will Objective __ data be analyzed?

Level of performance necessary to determine the Objective __ has been met:

The above template is for one program objective. Each program must have at least THREE, and no more than seven program objectives.
