

## ASU PROGRAM ASSESSMENT PLAN

Please submit a completed Program Assessment Plan for each graduate and undergraduate major, minor, and certificate program for which you are responsible.

When you submit this form, you will be returned to this page so that you may submit additional plans.

Before you submit your completed form, you can use the "Finish Later" button at the bottom of each page to save a partially completed form. This feature permits you to return later, complete the form, and submit it.

You can also use the "Back" button at the bottom of each page to review and edit previous pages of your partially completed form.

After you submit your completed form, you will be unable to retrieve or edit its contents. If your submission was inaccurate or incomplete, you may submit a second form.

Additional information about program assessment, including the preparation of assessment plans, can be found on the web site for the [Office of University Evaluation](#).

Please [e-mail](#) us with any other questions.

Completed assessment plans and curriculum matrices are due by October 1, 2008.

Start

Please fill out the requested information for a single academic program **only**.

**Program Name** (required):

**Program Type** (required, check one only):

Major  Minor  Certificate

**Program Level** (required, check one only):

Undergraduate  Graduate  Professional

**Undergraduate Degrees:** BA: Bachelor of Arts

Please complete the following fields for a single program objective.

We recommend at least three, and no more than seven, program objectives. Programs with more than seven program objectives (such as those with a large number of mandatory objectives defined by an accrediting agency) should consider rotating subsets of those objectives across a multi-year cycle. The Office of University Evaluation can assist with this process.

**Program Objective 1** (written in the form of an answer to, "What should program graduates know and be able to do?"):

NOTE: You will be advanced to pages for two additional program objectives. After that, you will be asked whether you want to add another program objective (for a maximum of seven program objectives.)

Note: At least two measures are required. At least one of those should be a direct measure. Additional measures are optional.

**Measure 1.1**

**Measure 1.2**

**Measure 1.3** (optional)

**Sampling for Objective 1:**

*(How many students will be included and how will they be selected?)*

**How will Objective 1 data be analyzed?****Level of performance necessary to determine the Objective 1 has been met:**
