Proposer may submit proposals for one (1) or more of the following areas of expertise:

The University cannot commit to any definite expenditure or volume during the contract period. The purpose is to establish a contract under which the University may task the contracted firms or individuals in their area of expertise as the need arises.

During the course of the Agreement resulting from this solicitation, the University, at its sole discretion, may add additional firms, provided that they meet the stated requirements of this Request for Proposal.

2. BACKGROUND INFORMATION

Arizona State University is creating a new model for American higher education, an unprecedented combination of academic excellence, entrepreneurial energy and broad access. This New American University is a single, unified institution comprising four (4) differentiated campuses and an expanding online program all positively impacting the economic, social, cultural and environmental health of the communities it serves. Its research is inspired by real world application, blurring the boundaries that traditionally separate academic disciplines. ASU serves more than 70,000 students in metropolitan Phoenix, Arizona, the nation's fifth largest city. ASU champions intellectual and cultural diversity, and welcomes students from all fifty states and more than one hundred nations across the globe. Even ASU students who learn online connect with the full university experience: interaction with internationally recognized faculty, access to collections from ASU's eight (8) award-winning libraries, an alumni network tens of thousands of members strong, and membership in a community of thousands of students pursuing their degrees.

Arizona State University (University/ASU) is one of the premier metropolitan public research universities in the nation. ASU is research-driven but focused on learning - teaching is carried out in a context that encourages the creation of new knowledge. ASU maintains a tradition of academic excellence in core disciplines and has become an important global center for innovative interdisciplinary teaching and research.

The University seeks to provide the best possible education to the broadest possible spectrum of society, embracing the educational needs of the entire population. By the year 2020, ASU is projected to enroll 90,000 students on its campuses and as many as 75,000 online students. The University is an active partner with the private sector in initiatives to enhance the social well-being, economic competitiveness, cultural depth, and quality of life of metropolitan Phoenix and the state.

The University seeks to advance social and economic development in Arizona. As it evolves, ASU will serve as the prototype for a New American University, redefining the existing conception of research universities. ASU is building a comprehensive metropolitan research university that is an unparalleled combination of academic excellence and commitment to our social, economic, cultural, and environmental setting.

The New American University is an institution that measures its academic quality by the education its graduates have received rather than by the academic credentials of its incoming freshman class; one whose researchers, while pursuing their scholarly interests, also consider the public good; one whose students, faculty, and staff transcend the concept of community service to accept responsibility for the economic, social, cultural, and environmental vitality of the communities they serve.

The contract will be available for use by other University departments during this time period.

SECTION III – PRE-PROPOSAL CONFERENCE

X No pre-proposal conference will be held.

 A pre-proposal conference will be held at time and date in location

The purpose of this conference will be to clarify the contents of this Request for Proposal in order to prevent any misunderstanding of the University's intention and desires, and/or to give prospective suppliers an opportunity to review the site of the work. Any doubt as to the requirements of this Request for Proposal, or any apparent omission or discrepancy should be presented to the University representative at this conference. The University representative will then determine the appropriate action. If necessary, the University representative will issue a written amendment to the Request for Proposal. You do not have to send a representative to this pre-proposal conference. However, if you decide to not send a representative, then we may not know of your intent to participate in this solicitation, and so may not send you any written amendments to this Request for Proposal. 24. In accordance with an executive order titled "Air Pollution Emergency Proclamation" modified by the Governor of Arizona on July 16, 1996, the University formally requests that all products used in the performance of any contract that results from this solicitation be of low- or no-content of reactive organic compounds, to the maximum extent possible.

To the extent applicable to any agreement resulting from this solicitation, the proposer shall comply with the Standards for Privacy of Individually Identifiable Information under the Health Insurance Portability and Accountability Act of 1996 contained in 45 CFR Parts 160 and 164 (the "HIPAA Privacy Standards") as of the effective date of the HIPAA Privacy Standards on April 14, 2003 or as later determined. Proposer will use all security and privacy safeguards necessary to protect Protected Health Information (PHI), as defined by HIPPA, and shall immediately report to University all improper use or disclosure of PHI of which it becomes aware. - v. Control access to ASU's resources, including sensitive data, limiting access to legitimate business need based on an individual's job-related assignment. Access should be approved and tracked by the system owner to ensure proper usage and accountability and shall be subject to review by ASU upon request.
- vi. Report information security incidents immediately (including, but not limited to those that involve information disclosure incidents, network intrusions, successful virus attacks, unauthorized access or modifications, and threats and vulnerabilities).

29. The University believes that it can best maintain its reputation for treating suppliers in a fair, honest, and consistent manner by conducting solicitations in good faith and by granting competitors an equal opportunity to win an award. If you feel that we have fallen short of these goals, you may submit a protest pursuant to the Arizona Board of Regents procurement procedures, section 3-809, in particular section 3-809C. This paragraph does not include all of the provisions of the Regents procedures, but it does tell you what you have to do to initiate a protest. First, you have to be an "interested party." An "interested party" is an actual or prospective proposer whose direct economic interest may be affected by the issuance of a solicitation, the award of a contract, or by the failure to award a contract. Whether an actual prospective bidder or offeror has a *direct* economic interest will depend upon the circumstances in each case. At a minimum, the interest must be substantial and must be tangibly affected by the administrative action or proposed action concerned in the case. For instance, a bidder or proposer who is fourth in line for award does not have a sufficient economic interest to protest the proposed award of a contract to the low bidder. Second, you must submit the protest in a timely manner. In procurements inviting bids, protests based upon

alleged errors, irregularities or, improprieties in a solicitation that are apparent before the bid opening shall be filed before the bid opening. In procurements requesting proposals, protests based upon alleged errors, irregularities or improprieties in a solicitation that are apparent before the closing date for receipt of initial proposals shall be filed before the closing date for receipt of initial proposals. Protests concerning improprieties that do not exist in the initial solicitation, but that are subsequently incorporated into the solicitation, shall be filed by the next closing date for receipt of proposals following the incorporation. In cases other than those just covered, protests shall be filed no later than ten days after a contract is awarded in connection with the procurement action. Failure to timely protest shall be deemed a waiver of all rights. Third, and finally, your protest shall be in writing and shall include the following information: (1) The name, address, telephone number, and fax number of the protestor; (2) The signature of the protestor or its representative; (3) Identification of the solicitation or contract number; (4) A detailed statement of the legal and factual grounds of the protest including copies of relevant documents; and (5) The form of relief requested.

Protests should be directed to:

John F. Riley, C.P.M.
Executive Director of Purchasing and Business Services
Arizona State University
PO Box 875212
Tempe AZ 85287-5212
Fax: (480) 965-2234

Please note that as the University takes protests very seriously; we expect you to do so as well. Frivolous protests will not result in gain for your firm.
