February 26th, 2018 (emailed to all proposers on this date)

ADDENDUM # 2
RFP 301801

DIGITAL ASSET MANAGEMENT SOFTWARE

Please note the following answers to questions that were asked prior to the deadline for inquiries date of February 26th, 2018 (3:00 PM., MST).

1. What percentage of users do you anticipate using mobile devices to access the DAM?
   **Answer:** We estimate about 25% of use will be via mobile device at a given time.

2. With regard to ASU’s desire for integration of the DAM with other systems, is ASU interested only in pre-built integrations, or is ASU also considering integrations that could be accomplished using API calls available to/from the DAM?
   **Answer:** API calls are an option ASU will consider.

3. Is SOC 2 compliance a strong/definitive requirement?
   **Answer:** Yes, the SOC2 compliance is a strong requirement of this project.

4. Is two-factor authentication a strong/definitive requirement?
   **Answer:** Yes, the university has been moving to a two-factor authentication as part of our overall policy for connectivity. This is a strong requirement.

5. Is full compliance with Section 508 standards a strong/definitive requirement?
   **Answer:** Please reference Section VIII – Evaluation Criteria #4 for more information.

6. What is the timeline in which we can expect a response?
   **Answer:** We cannot provide a timeframe or timeline as to when responses can be expected. There are several internal stakeholders involved in the RFP process that must review responses and decide on its outcome. Please be sure, however, that we are doing our diligence throughout the process and making decisions best-fit for our organization. We thank you for your patience and appreciate your time and responses.
7. Will the questions and responses of participating vendors in the RFP be compiled internally and share to all vendors? If so, when might we expect this?

**Answer:** If this is in reference to other respondents’ inquiries, these are posted and shared in the form of addendums. All information can be found on ASU’s Commodities / Services Bid Board.
