Budget and Resources

What was the impact of ASU’s loss of enrollment growth formula funding?

• Educational quality is directly linked to enrollment growth funding

• Lack of enrollment growth funds of $21.5 M weakens an already unacceptable ratio of students to faculty

• The impact on ASU was particularly crippling this year because of the large increase in enrollment, highest among the state’s universities

• ASU will need to consider restrictions in admissions if enrollment growth funding is not recovered
ASU Student to Faculty Ratio*
1991–2002

*FTE Students to Full-time Tenured/Tenure-track Faculty
Lost 22:1 Enrollment Growth Funds Request at Arizona Universities
Fiscal Year 2004

Original Request: $27,745,000

ASU $21.5 M
UA $5.2 M
NAU $1.1 M
