

ASU Summer Youth Programs - 2008

ART

Herberger College at Large

Description:

Classes and workshops for teens and adults in art, digital art, dance, music, and theatre. Community members of all skill levels will learn from the Herberger College of the Arts faculty and talented graduate students at the Tempe campus.

Participant eligibility:

Most Herberger College at Large classes accept students 15 years old and up and some require that students be at least 18 years old.

Dates and Times:

Summer classes begin the week of June 2, 2008

Location:

ASU at the Tempe campus

Registration info:

All classes are open until full. Visit the website for registration information.

Fee:

Fees vary by class or workshop.

Camp Broadway

Description:

Camp Broadway is a performing arts summer camp for theater-loving kids ages 10 to 17. Campers work collaboratively with Broadway performers, writers and designers. Plus, campers will have a chance to see My Fair Lady and meet the cast and crew.

Participant eligibility:

Kids ages 10-17

Dates and Times:

June 16–20, 2008

Location:

ASU at the Tempe campus

Registration info:

Register at: http://www.asugammage.com/pdfs/2008_Camp_Tour_Application_Forms.pdf

Fee: \$600

Herberger College for Kids**Description:**

Herberger College for Kids presents summer camps for kids in art, dance, music, and theatre. Camps are two-week half-day sessions in each discipline. Children who want to stay all day must choose two disciplines: one in the morning and one in the afternoon. Children will have so much fun that they won't realize they are learning!

Participant eligibility:

Summer camps are for kids ages 5-14.

Dates and Times:

Session 1: June 2-13, 2008; Session 2: June 16-27, 2008; Session 3: July 7-18, 2008; All sessions are from 9 am to 12 pm OR 1 pm to 4 pm

Location:

ASU at the Tempe campus

Registration info:

Registration opens February 1, 2008 and remains open until each class is full.

Fee:

Each half-day, two-week camp session: \$260 (\$25 additional for art camps). ASU or early bird discount (before April 30): \$10 off each two-week session.

ASU Summer Youth Programs - 2008

CAREER EXPLORATION AND LEADERSHIP DEVELOPMENT

Asian LEAD Academy

Description:

The LEAD Academy is a two week summer program consisting of workshops, speakers and other activities enhancing leadership skills. It was designed to provide academic support and leadership skills training through enrichment activities for students of Asian and/or Pacific Islander heritage. Leadership skills are improved and strengthened through the use of public speaking, debate, mock trial, career planning, and other hands-on activities and field trips. Students also become familiar with Asian American and Pacific Islander cultures, history, and current issues through research and presentations.

Participant eligibility:

High School Students

Dates and Times:

June 9-20, 2008; 9 am to 3 pm Monday through Friday

Location:

ASU at the Tempe campus

Registration info:

<http://www.asu.edu/studentaffairs/mss/lead/ap.html>

Fee:

\$25

Hunnicut Future Educators Academy (FEA)

Description:

The Hunnicutt Arizona Future Educators Academy is designed for any Arizona secondary school student who will be entering grades 9-12, and are considering teaching as a career choice. The participants must be interested in a campus experience aimed at exploring a career in teaching and developing leadership skills.

Participant eligibility:

High school students

Dates and Times:

June 16 - 20, 2008 (in-residence)

Location:

ASU at the Tempe campus

Registration info:

First round review and notification will begin March 2008 and end by May 15, 2008.

Fee:

\$225 if you apply by Dec. 1, 2007; \$260 if you apply by Feb. 1, 2008; \$295 if you apply by Apr. 1, 2008; \$325 if you apply after Apr. 1, 2008. Limited discounted scholarships are available.

ASU Summer Youth Programs - 2008

MATH/ENGINEERING/SCIENCES

Body Detectives: Looking Inside the Human Body Systems

Description:

This 3 week course is for talented 3rd grade students. From walking down the street to fighting off diseases, the body is responsible for hundreds of functions everyday. Like a machine, the body works together allowing us to think, breathe, eat, and sleep. But just how does all this happen? Be the body detective and discover the inner workings of the body: its functions, organs, senses, and processes. From head to toe, every part of you has a function. Through research, experiments, and movement exploration, discover the ways in which the body's systems work and how those systems interact.

Participant eligibility:

For talented students currently in 3rd grade.

Dates and Times:

June 9-27, 2008; Monday through Friday; 12:30pm-3:30pm

Location:

ASU at the Tempe campus

Registration info:

Priority Application Deadline: Postmarked by April 7, 2008. Application instructions available at <http://www.asu.edu/talentedyouth>

Fee:

\$25 application fee, \$425 cost per course, limited financial assistance available.

Fast-Paced Algebra I

Description:

This 3-week course is for talented students in 6th and 7th grades. Developing a structure for higher mathematics is essential in today's society. This course provides the mathematical base necessary for students to pursue studies in a full-year Algebra I course. Through computer-guided tutorial instruction supplemented with instructor-led lectures, students will work at their own pace. The students will study the real number system and its sets, the concept of algebra, the rules of algebra, the operations of signed numbers, and the solution process for linear equations, and linear inequalities. Throughout the course, students' skills are continually monitored so that further instruction focuses on new and more complex problems and topics. Students taking this course should be proficient in the pre-algebra skills of working with the four basic operations of whole and rational numbers and basic number theory. Students should also have some familiarity with exponents, square roots, and order of operation. In this course, students must be capable of working independently.

Participant eligibility:

For talented students currently in 6th and 7th grades

Dates and Times:

June 9-27, 2008; Monday through Friday; 12:30 pm -3:30 pm

Location:

ASU at the Tempe campus

Registration info:

Priority Application Deadline: Postmarked by Monday, April 7, 2008. Application instructions available at <http://www.asu.edu/talentedyouth>

Fee:

\$25 application fee, \$425 fee per course, limited financial assistance available

Fast-Paced Pre-Algebra**Description:**

This 3-week course is for talented 4th and 5th grade students. In this course, students will focus on the computational, critical thinking and problem solving skills characteristic of pre-algebra mathematics. Through computer-guided tutorial instruction supplemented with instructor-led lectures, students will work at their own pace. The students will study fractions, decimals, number theory, ratios and proportions, percents, data analysis, integers, exponents, geometry, and the real number system. Throughout the course students' skills are continually monitored so that further instruction focuses on new and more complex problems and topics. In this course students must be capable of working independently.

Participant eligibility:

For talented students currently in 4th and 5th grades

Dates and Times:

June 9-27, 2008; Monday through Friday; 8:30 am -11:30am

Location:

ASU at the Tempe campus

Registration info:

Priority Application Deadline: Postmarked by Monday, April 7, 2008. Application instructions available at <http://www.asu.edu/talentedyouth>

Fee:

\$25 application fee, \$425 fee per course, limited financial assistance available

On the Move to Algebraic Thinking**Description:**

This 3-week course is for talented students in 3rd grade. In this course students will gain access to the big ideas and concepts basic to algebraic thinking, like variables, constants, expression, and equation, by strategically moving manipulatives to solve linear equations. Using a visual, hands-on system that consists of game pieces and numbered cubes, students will be able to physically represent and find solutions to linear equations. As students learn to create concrete representations of algebraic symbols, they will begin to develop the thinking and skills needed to transition to the more abstract, formal processes of solving algebraic equations. Each day a new lesson will be presented that will build upon the concepts taught the previous day. Students will be assessed to ensure comprehension of concepts, and homework will be assigned to promote retention of the lessons covered in class. Students will also participate in classroom activities that will enhance and highlight the big ideas of solving equations.

Participant eligibility:

For talented students currently in 3rd grade

Dates and Times:

June 9-27, 2008; Monday through Friday; 8:30 am -11:30 am

Location:

ASU at the Tempe campus

Registration info:

Priority Application Deadline: Postmarked by Monday, April 7, 2008. Application instructions available at <http://www.asu.edu/talentedyouth>

Robotics Camp

Description:

ASU Robotics Camp is a summer program series designed for high school students who intend to pursue a science and engineering career. Sponsored by U.S. Department of Education, Intel, and ASU School of Computing and Informatics, the 2008 program uses robot construction and programming as a vehicle to teach the latest engineering design concepts and computing technologies. The summer program has been offered since 2005, and past students have described the camp as entertaining, educational, and exciting! Sponsored by U.S. Department of Education, a special track will be offered to school teachers to help them enhance their technology teaching in their schools.

Participant eligibility:

Robotics Camp 2008 is designed for students entering 9th, 10th, 11th, or 12th grade in Fall 2008.

Dates and Times:

June 23 - July 3, 2008; 8am - 5pm

Location:

ASU at the Tempe campus

Registration info:

Youth Engineering Summer program (YES!) for High School Females

Description:

YES! for high school females is a two-week residential program. Room and board, and classroom materials will be provided. Students will learn about engineering through hands-on engineering projects. Students will live in the residential halls at ASU, participate in team-building activities, tour engineering labs and go on industry visits.

Participant eligibility:

Females entering 10th-12th grade in the fall of 2008. Program selection will be based on scholastic performance (minimum 2.75 GPA), personal essay, and interest in program.

Dates and Times:

June 9-20, 2008

Location:

ASU at the Tempe campus

Registration info:

Registration deadline is May 16, 2008.

Fee:

There is a \$25 nonrefundable application fee, and \$250 tuition if accepted to program. Limited number of scholarships are available based on financial need.

Youth Engineering Summer program (YES!) for High School Males**Description:**

YES! for high school males is a two-week residential program. Room and board, and classroom materials will be provided. Students will learn about engineering through hands-on engineering projects. Students will live in the residential halls at ASU, participate in team-building activities, tour engineering labs and go on industry visits. Students will work in teams to complete various engineering projects, culminating in a competition at the end of the program.

Participant eligibility:

Males entering 10th-12th grade in fall 2008. Selection for the program will be based on scholastic performance (minimum 2.75 GPA), personal essay, and interest in program.

Dates and Times:

June 9-20, 2008

Location:

ASU at the Tempe campus.

Registration info:

Registration deadline is May 16, 2008.

Fee:

There is a \$25 nonrefundable application fee, and \$250 tuition if accepted to the program. A limited number of scholarships are available based on financial need.

Youth Engineering Summer program (YES!) for Middle School Females

Description:

Students will participate in hands-on engineering activities to explore the various disciplines of engineering. Students will work on a week-long project culminating in a competition at the end of the week. YES! for middle school females is a commuter program, and students must be dropped off and picked up daily.

Participant eligibility:

Females entering 6th-9th grade in fall 2008. Selection for program will be based on scholastic performance (minimum 2.75 GPA), personal essay, and interest in program.

Dates and Times:

July 14-18, 2008; 8am-4pm

Location:

ASU at the Tempe campus

Registration info:

Registration deadline is May 16, 2008.

Fee:

There is a \$25 nonrefundable application fee, and \$75 tuition fee if accepted to the program. A limited number of scholarships are available.

ASU Summer Youth Programs - 2008

COMPUTER GRAPHICS & ANIMATION

CampGame

Description:

CampGame is a unique six-week experience for high school students in intensive video game creation, visualization and production. Students will work with faculty experienced in the game industry to create concepts and prototypes for games using the latest software, hardware and development tools.

Participant eligibility:

CampGame is designed to be fun and challenging and is open to any student who will be entering the 10th, 11th, or 12th grade in the fall of 2008. Prior experience in programming or computer graphics is recommended. However, specific skills are not assumed for the overall program.

Dates and Times:

June 9 - July 18, 2008; 8:30am to 4:30pm Monday through Friday

Location:

ASU at the Tempe campus; Brickyard on Mill, 699 S Mill Avenue, Tempe AZ

Registration info:

<http://sci.asu.edu/campgame/>

Fee:

Tuition will be \$2000, plus a \$25 non-refundable application fee. For scholarship information go to <http://sci.asu.edu/campgame/>

Contact:

School of Computing and Informatics

Phone: 480-965-8637

Email: scisummercamps@asu.edu

Computer Graphics and Animation

Description:

This 3-week course is for talented 4th and 5th grade students. Computer generated images are everywhere. The ability to create computer images becomes a more and more desired skill, a key to powerful presentations at school, and the cornerstone of new forms of creativity. Throughout the course, the students will be introduced to a variety of digital image and animation formats, the role of sound in animation, design of a web page, setup of a web site and user navigation tools. The students will work with the latest digital imaging HTML code to develop their own web site and learn how to publish it when it is completed. This course is open to students who have the ability to operate a keyboard and other common input and output devices, retrieve and save information remotely, and communicate independently via E-mail and the Internet.

Participant eligibility:

For talented students currently in 4th and 5th grades

Dates and Times:

June 9-27, 2008; Monday through Friday; 12:30pm-3:30pm

Location:

ASU at the Tempe campus

Registration info:

Priority Application Deadline: Postmarked by Monday, April 7, 2008. Application instructions available at <http://www.asu.edu/talentedyouth>

Fee:

\$25 application fee, \$425 cost per course, limited financial assistance available

Herberger College at Large Digital Game Intensive**Description:**

Digital games are pervasive in today's society and are rapidly growing in cultural influence. The impact of new game interfaces, such as the Nintendo Wii®, illustrates that games are moving beyond the console and engaging players in new interactions. During this intensive, students work in collaborative teams to study and design interactive digital games that use full-body, 3-D movements and gestures within ASU's innovative mixed-reality environment, SMALLab. Through hands-on activities, students create audio, visual, and movement elements that are assembled through programming, into new immersive games. At the end of the program, students invite family and friends to SMALLab for an evening of interactive-game play and fun with their new creations. The intensive is led by an interdisciplinary team of digital media experts from ASU's Arts, Media and Engineering Program.

Participant eligibility:

Ages 15 and up

Dates and Times:

June 16 - July 3, 2008; Monday-Friday; 1-4 p.m.

Location:

ASU at the Tempe campus, Digital Arts Ranch (DAR)

Registration info:

Visit: herbergercollegeatlarge.asu.edu for registration information. Workshop is open until full.

Fee:

\$475 for the 3-week intensive

Learning to Program Using Ruby

Description:

This 3-week course is for talented students in 6th and 7th grades. We use computers everyday, and they are not just sitting on our desk. They are in the game console, the cable box, and the TV in our family room, in the microwave and coffee machine in the kitchen, in the cell phone and iPod. A computer helps run the car's engine, and some people now have a computer navigation system in their car. Computers are everywhere, but a computer cannot do anything if someone does not write a program for it. It is easier than ever before to learn how to program a computer. In this course students will use Ruby, a modern, dynamic, open source programming language with a focus on simplicity and productivity. The final week of class will culminate in the students creating their own interactive game. Learning to program is a valuable skill for anyone who wants to be computer literate.

Participant eligibility:

For talented students currently in 6th and 7th grades

Dates and Times:

June 9-27, 2008; Monday through Friday; 8:30 am -11:30 am

Location:

ASU at the Tempe campus

Registration info:

Priority Application Deadline: Postmarked by Monday, April 7, 2008. Application instructions available at <http://www.asu.edu/talentedyouth>

Fee:

\$25 application fee, \$425 fee per course, limited financial assistance available

Summer Design Workshop

Description:

Discover the architecture and design professions through a hands-on and interactive program that focuses on exploring the many facets of design. Students interested in design will learn what architects and designers do, what designing buildings and cities is all about, and most importantly, how design decisions impact the communities in which we live. College of Design faculty and current ASU students will teach participants about basic design principles, lead hands-on projects, conduct discussions with Valley design professionals, and direct tours of significant sites to promote an understanding of the built environment and the design processes that shape it. Students will gain experience in making models and drawing.

Participant eligibility:

All high school students from any high school are eligible for the program. Students entering their junior and senior year of high school may have preference.

Dates and Times:

June 9-27, 2008; Monday through Thursday; 9:00 am - 2:00 pm; Student exhibition on Friday June 27

Location:

ASU at the Downtown Phoenix campus, Phoenix Urban Research Lab (PURL)

Registration info:

Space is limited and will fill up fast. Applications are due no later than May 1, 2007 or while space in the program remains.

Fee:

Students may be eligible for free or reduced tuition! Cost of the program is \$2,000.

ASU Summer Youth Programs - 2008

LANGUAGE/WRITING/READING

Creative Writing (4th - 5th grade)

Description:

This 3-week course is for talented students in 4th and 5th grades. This course provides students with the opportunity to work with a practicing writer in a high expectation, small-group setting in order to create vivid and compelling creative writing. The students will explore the genres of poetry, the prose poem, and flash fiction through a series of guided writing exercises, discussions, and workshops. In order to develop and enhance key dimensions of their projects, students will study the work of published authors, read and respond to (both written and verbally)the work of their peers, submit their own work for peer review, complete writing exercises designed to reinforce key concepts introduced in class, and revise their work for publication. Above all, this course values original thinking and writing, and all activities, exercises, discussions, and critiques are designed to achieve that end.

Participant eligibility:

For talented students currently in the 4th - 5th grades.

Dates and Times:

June 9-27, 2008; Monday through Friday; 12:30pm-3:30pm

Location:

ASU at the Tempe campus

Registration info:

Priority Application Deadline: Postmarked by Monday, April 7, 2008. Application instructions available at <http://www.asu.edu/talentedyouth>

Creative Writing (6th-7th grades)

Description:

This 3-week course is for talented 6th and 7th grade students. In this course, students will study and apply to their own work the elements of creating original, character-driven narrative fiction. Key concepts to be covered include developing three-dimensional characters, writing believable dialogues, controlling narrative point of view, and revising for publication. Students will study the work of published authors, read and respond to (both written and verbally) the work of their peers, submit their own work for peer review, complete writing exercises designed to reinforce key concepts introduced in class, and revise their work for publication. At the conclusion of this course, each student will have his or her work published in a class anthology.

Participant eligibility:

For talented students currently in 6th and 7th grade

Dates and Times:

June 9-27, 2008; Monday through Friday; 8:30am-11:30am

Location:

ASU at the Tempe campus

Registration info:

Priority Application Deadline: Postmarked by Monday, April 7, 2008. Application instructions available at <http://www.asu.edu/talentedyouth>

Gateway to Mandarin & Culture

Description:

This 3 week course is for both 4th & 5th, and 6th & 7th grade students. Gateway to Mandarin and Culture is a unique and exciting course designed to teach and provide students the chance to personally experience the beauty and strength of language and culture. Students will learn through hands-on activities to gain global perspectives, understanding, skill, knowledge, and appreciation of diversity through speaking, writing, listening, and reading Mandarin. Students will also truly discover and enter the world of culture from learning Chinese calligraphy, painting, music, paper folding, paper cutting, traditional dough arts, yo-yo, kung fu, dance, and arts and crafts. Students will achieve awareness and wisdom of Chinese history, tradition, heritage, customs, virtues, zodiacs, inventions, and festivals. This course will give students the precious opportunity to voyage into Mandarin language and culture.

Participant eligibility:

For talented students currently in 4th, 5th, 6th, & 7th grades

Dates and Times:

June 9-27, 2008; Monday through Friday; 4th & 5th grades- morning session; 6th & 7th grades- afternoon session

Location:

ASU at the Tempe campus

Registration info:

Young Adult Writing Project (YAWP)

Description:

The Young Adult Writing Project (YAWP) is a summer writing program for students who want to integrate meaningful and authentic writing into their lives. All young writers are welcome to apply, and we encourage teachers or other adult mentors to recommend students who would benefit from this kind of writing community. Over the course of three weeks, we cultivate inspiration by collaborating with other young artists, taking field trips into the community, and inviting published writers to visit and share their own stories and writing styles. Students leave YAWP with a published collection of writings created during our time together.

Participant eligibility:

Students entering grades 8-12 in fall 2008 are eligible.

Dates and Times:

June 9-27, 2008; Monday through Friday; 8:45 am -12:30 pm

Location:

ASU at the Tempe campus; Language & Literature building

Registration info:

Application is available for download at YAWP website (www.asu.edu/english/yawp), or by emailing Kristen.LaRue@asu.edu or calling 480-965-7611. Application deadline is April 11, 2008. A mandatory orientation meeting is planned for May 17.

Fee:

Tuition for the program is \$300. A limited number of scholarships may be available, but students and their teachers, mentors, and parents may want to explore resources for financial support in their schools and communities.

ASU Summer Youth Programs – 2008

OTHER PROGRAMS

Petroglyph Pathfinders Summer Camp

Description:

Do your kids like to explore, dig in the dirt, collect clues and create? The Deer Valley Rock Art Center is pleased to host another season of our popular summer camp, Petroglyph Pathfinders. We offer one-week action-packed camps for children ages 8 to 11 at a real archeology site! Our camp fosters adventure and enrichment exploring themes such as desert animals and insects, botany and native gardening, archeology, and cultural anthropology and of course, a good dose of fun! Campers will explore these topics through hands-on educational activities, crafts, storytelling, games, hikes and much more! The Deer Valley Rock Art Center is a museum, nature preserve, and archaeological site with the largest concentration of Native American rock art in the Phoenix Valley. Our interpretive trail takes visitors back 5000 years, when ancient people marked boulders with thousands of special symbols called "glyphs." Managed by Arizona State University's School of Human Evolution and Social Change, the Museum is listed on the National Register of Historic Places and is a Phoenix Point of Pride.

Participant eligibility:

Kids ages 8 to 11

Dates and Times:

Session I: June 2-6; Session II: June 16-20. Monday through Friday; 8am-3pm

Location:

Deer Valley Rock Art Center (3711 W. Deer Valley Road, approximately two miles north of Highway 101 and two miles west of I-17)

Registration info:

Camp size is limited to 20 children. To register, print out the Registration Application Form off our website under Education/Summer Camp www.asu.edu/clas/shesc/dvrac along with your preferred method of payment (credit card number, check or money order) and mail to: Kim Arth, Deer Valley Rock Art Center, P.O. Box 41998, Phoenix, AZ 85308. Please make checks and money orders payable to Deer Valley Rock Art Center.

Fee:

Fee includes tuition and morning snack: Member, \$75. Non-member, \$95.

Camp Kesem – Youth at Risk

Description:

Camp Kesem is a free, week-long summer camp for children who have or had a parent with cancer. The campers have the opportunity to participate in fun and encouraging programs such as rock climbing and archery, and at the same time, meet peers facing similar challenges. Although we do not directly provide therapy at the camp, our program deeply impacts those who participate. We will be accepting 40 children for the upcoming session, held July 28th to August 2nd at YMCA's Camp Sky-Y in Prescott. Camp Kesem ASU is a branch of the national 501(c)3 non-profit organization. It is entirely organized and run by student volunteers who are able to develop critical leadership skills during the process. Our wonderful members raise the necessary funding throughout the year in order to provide this service. All counselors and officers must pass a strict application process, including CPR certification, criminal background check, interviews, and they must attend a series of training sessions. A nurse, social worker, and experienced camp director also attend the camp session in its entirety.

Participant eligibility:

We require children ages 6-13 who have or had a parent (or legal guardian) with cancer. Any family fulfilling the above criteria are encouraged to apply. Applications are due June 1st, 2008. Because we are a free service to the community and have limited space available, families are encouraged to apply as soon as possible.

Dates and Times:

July 28- August 2, 2008

Location:

Camp Sky-Y, Prescott, AZ

Registration info:

Applications are due June 1, 2008. The application can be found at www.campkesem.org/asu or via email at asu@campkesem.org.

Fee:

Free
