Arizona State University

ASU Main Campus

FALL 2000 TRANSFER GUIDE

FOR DINÉ COLLEGE

Bachelor of Science in Engineering

Computer Systems Engineering

Students applying for admission with transferable hours must meet transfer GPA, freshman aptitude, and competency requirements www.asu.edu/admissions/applyingtoasu. Students transferring 24 or more semester hours do not have to meet freshman aptitude requirements. Students who are 22 years of age or older or have completed an Arizona General Education Curriculum (AGEC) or any associate degree or higher do not have to meet competency requirements. A maximum of 64 transferable semester hours completed at a regionally accredited two-year institution may be transferred to ASU. All transferable community college credits are accepted as lower-division credits and do not satisfy upper division General Studies or graduation requirements.

The Computer Systems Engineering student is especially concerned with the design and production of computer systems. Computer organization and architecture, system programming, operating systems, and digital hardware design receive heavier emphasis with this degree. Prospective students may call 480/965-7788 (toll free numbers for applicants: 1-800-252-ASU1 out of state and 1-800-325-9371 in state) or write to the Undergraduate Admissions Office for information including application materials. For further information, call or write:

SCHOOL OF ENGINEERING ADMISSION CRITERIA

1. A minimum of 2.50 cumulative GPA is required from community college transfer students.
2. Students whose native language is not English must also submit a TOEFL score of 550 points in addition to meeting the minimum GPA requirements.
3. Transfer students are encouraged to have completed science and math courses applicable to the engineering degree.
4. A preprofessional category of admission is available for applicants deficient in School of Engineering admission requirements.
5. Students admitted to the preprofessional program are restricted to taking lower-division courses. After completing a minimum of 30 semester hours of required or approved elective courses with a cumulative minimum GPA of 2.50, one may apply for admission to the professional program. The cumulative GPA is calculated using all credits from ASU and from all other colleges and universities attended.

Transfer value of a course, including General Studies value, is governed by the Course Applicability System (CAS) in force at the time the course is taken. Summer session is included with the previous academic year. Community college courses which are equivalent in content to upper division courses at ASU will be transferable as equivalent but with lower division credit. The course need not be repeated but will not count toward the required number of upper division credit hours.

GENERAL STUDIES REQUIREMENTS

Students completing the Arizona General Education Curriculum (AGEC) will still be required to fulfill lower division program requirements and prerequisites within their college and major/minor area of study. In all cases, students have the responsibility for selecting general education coursework that is relevant to the requirements of their intended major and degree.

Students in an engineering program must complete 16 hours of Humanities [HU] and Social/Behavioral Sciences [SB] courses. One course must be taken at ASU, as it must be upper division. In your selection of HU and SB credits, two courses must be from the same department (or have the same prefix). Select credits from CAS General Studies Insert as follows: 6 or 7 HU credits, 6 or 7 SB credits (which must include those that transfer as ECN 111 or ECN 112), 3 C credits, 3 G credits, and 3 H credits. It is beneficial for students to select HU or SB courses that concurrently satisfy C, G or H requirements. Additional and/or mandated General Studies requirements, if any, are listed in the Major Requirements section below with designation in brackets, e.g. [CS].

EG-15
MAJOR REQUIREMENTS

ASU

CHM 114  General Chemistry for Engineers [SQ]

or

CHM 113  General Chemistry [SQ]

and

CHM 116  General Chemistry [SQ]

CSE 200  Concepts of Comp Sci  [CS]

CSE 210  Object-Oriented Design and Data Structure [CS]

ECN 111  Macroeconomic Principles [SB]

or

ECN 112  Microeconomic Principles [SB]

MAT 243  Discrete Math Structures

MAT 270  Cal/Analytic Geo I [MA]

MAT 271  Cal/Analytic Geo II [MA]

MAT 272  Cal/Analytic Geo III [MA]

MAT 274  Elem Diff Equations [MA]

PHY 121  Univ Physics I: Mech [SQ] &

PHY 122  Univ Physics Lab I [SQ]

PHY 131  Univ Physics II:Elec & Magnetsm [SQ] &

PHY 132  Univ Physics Lab II [SQ]

DC

CHM 151  General Chemistry I

CHM 152  General Chemistry II *

* CHM 152 is accepted in lieu of ASU’s CHM 116 [SQ] for Engineering majors only.

No DC equivalent

ECO 200  Prin of Macroeconomics

ECO 201  Prin of Microeconomics

MTH 210  Discrete Math *

* MTH 210 satisfies [MA] requirements.

MTH 191  Calculus I

MTH 192  Calculus II

MTH 220  Calculus III

MTH 221  Ordinary Differntl Equa

MTH 270  Cal/Analytic Geo I [MA]

MTH 271  Cal/Analytic Geo II [MA]

MTH 272  Cal/Analytic Geo III [MA]

MTH 274  Elem Diff Equations [MA]

PHYS 121  Engineering Physics I

PHYS 122  Engineering Physics Lab I [SQ]

PHYS 131  Engineering Physics II

PHYS 132  Engineering Physics Lab II [SQ]

ECE 100  Intro Engrg Design [CS]

Approved by Marilyn L. Hart

Date 12/12/00

Coordinator, Academic Administration

1. Although a course may satisfy a core area requirement and an awareness area requirement concurrently, a course may not be used to satisfy requirements in two core areas simultaneously. A course may satisfy two awareness areas concurrently.

2. When selecting HU or SB core courses, students must keep in mind that A. two courses from the same department must be taken in either core area; B. courses from at least two departments must be taken. These two conditions may, but need not be satisfied in the same core area. At least one course within the 16 semester hours must be an upper-division course taken only at ASU.
