Moderator: Una Osili, Center on Philanthropy

3:15-3:30 **Break**

3:30-5:00 **Afternoon Panel Sessions**

Discussion on local examples of nonprofit data utilization and research methodologies

Community Data and GIS Mapping

James Edwards and Gustavo Rotondaro, Johnson Center for Philanthropy and Nonprofit Leadership

The session will highlight ways that the Community Research Institute (CRI) gathers, analyzes, interprets, and shares national and local data through partnerships with nonprofit and neighborhood groups in an effort to assist local and regional nonprofit leaders with decision making, grant writing, and program evaluation.

Giving and Volunteering Surveys

Una Osili, Center on Philanthropy

This session will provide an overview of various tools utilized and developed to study giving and volunteering behavior and discuss lessons learned from the 2007 COPPS data.

3:30-5:00

Scope and Scale of the Nonprofit Sector

Becky Nesbit, University of North Carolina-Charlotte, Richard Clerkin, North Carolina State University and Kellie McGivern-Bohan, Indiana University

This session will provide an overview of data, methodology and lessons learned in the recently concluded research on the State of the Nonprofit Sector in Indiana. It will also highlight data collection issues and remedies and provide recommendations on methodologies that can be replicated in other geographies.

Mining Historical Data on the Nonprofit Sector

David Hammack, Case Western Reserve University

This session will focus on the different types of historical data and resources and the lessons that can be learned from research on the history of the nonprofit sector.
