Dear Sir or Madam,

The following students participated in a psychology experiment this year. As part of the data, they reported their SAT scores. Experience tells us that the students often misrecall these numbers, and that it is prudent to have them verified.

Please indicate whether the following scores are correct, and if not, what they should be. We appreciate your time and cooperation! - Thank you.

<u>S#</u>	<u>Name</u>	<u>Student #</u>	<u>VSAT</u>	<u>QSAT</u>
19			650 _____	690 _____
15			780 _____	670 _____
9			670 _____	630 _____
2			550 _____	500 _____
1			650 _____	550 _____
11			660 _____	750 _____
12			550 _____	630 _____
5			610 _____	740 _____
22			430 _____	690 _____
10			500 _____	500 _____
14			620 _____	610 _____
16			710 _____	720 _____
18			500 _____	610 _____
21			670 _____	670 _____
6			730 _____	680 _____
8			540 _____	500 _____
13			500 _____	720 _____
4			590 _____	660 _____
20			720 _____	630 _____
17			720 _____	710 _____
7			520 _____	510 _____
