

Icebox Detox

Save space, time and money and improve ASU's sustainability impact.

1

Catalog biological samples to ensure accurate records.

2

Dispose of unwanted samples and consolidate to save space.

3

Maximize the use of existing space and organize to make more space.

4

Perform routine service and maintenance to conserve energy and extend equipment life.

5

Turn off, donate or send unused equipment to ASU Surplus, to conserve energy and increase lab space.

6

Lease or purchase energy-efficient freezers and buy from ASU Surplus at a reduced cost.

ASU Partners:

University Sustainability Practices, ASU Knowledge Enterprise Development and Environmental Health and Safety.
