

Laboratory evacuation

During an emergency, be prepared to evacuate your laboratory.

Before leaving, follow lab-specific procedures.

How to exit:

- Know multiple ways out.
- Follow exit signs.
- Direct others on your way out.
- Close doors while exiting.
- Use stairs.

Walk to the building's primary or secondary assembly area.

Wait for an all-clear from:

- EHS staff
- Emergency responders

▶ Take required annual fire safety training:
links.asu.edu/firetraining

▶ Develop an Emergency Evacuation Plan:
