

Stay alert: Don't get stuck

Understand needle hazards and what to do if you find one.

You may find needles on campus,
at work and in restrooms.

If you find a needle

1. Consider needles a hazard.
2. Do not pick up or touch it.
3. Notify others about the hazard.
4. Report needle location to EHS.

For needle safety information and
an important awareness video,
visit links.asu.edu/sharps.

Questions? Email biosafety@asu.edu
or call EHS [480-965-1823](tel:480-965-1823).
