

to be looked out of

smooth surface shaped shined

by many that clung and swung as they flew from flight

those transitioning

conquer height square air to solid stages  
with feet grounded fly

defy the laws that say we are ground bound

land landed page born and sky defeated

land becomes line  
dimension compressed  
tracks followed  
in case of unknown  
one walked then passed on  
down in on step out up  
form from form from  
serried spine stem

origin through with cords that divide

spread above below

trunk compresses to rings that which is  
able to sprawl

from central being

branch thought root memory  
framed by frames that control  
bring differences into negotiation

together not notice so far opposite as the glass clings  
so intimately in transparency  
permits as it reflects
