Arizona State University

ASU Main Campus

FALL 2000 TRANSFER GUIDE

FOR ARIZONA WESTERN COLLEGE

Bachelor of Science

Computer Science

Students applying for admission with transferable hours must meet transfer GPA, freshman aptitude, and competency requirements www.asu.edu/admissions/applyingtoasu. Students transferring 24 or more semester hours do not have to meet freshman aptitude requirements. Students who are 22 years of age or older or have completed an Arizona General Education Curriculum (AGEC) or any associate degree or higher do not have to meet competency requirements. A maximum of 64 transferable semester hours completed at a regionally accredited two-year institution may be transferred to ASU. All transferable community college credits are accepted as lower-division credits and do not satisfy upper division General Studies or graduation requirements.

Computer Science is the study of information processing, the generation, storage, and transmission of data and information. Students learn to work with large and small computers and with various programming languages. Prospective students may call 480/965-7788 (toll free numbers for applicants: 1-800-252-ASU1 out of state and 1-800-325-9371 in state) or write to the Undergraduate Admissions Office for information including application materials. For more information, call or write:

SCHOOL OF ENGINEERING ADMISSION CRITERIA
1. A minimum of 2.50 cumulative GPA is required from community college transfer students.
2. Students whose native language is not English must also submit a TOEFL score of 550 points in addition to meeting the minimum GPA requirements.
3. Transfer students are encouraged to have completed science and math courses applicable to the engineering degree.
4. A preprofessional category of admission is available for applicants deficient in School of Engineering admission requirements.
5. Students admitted to the preprofessional program are restricted to lower-division coursework. After completing a minimum of 30 semester hours of required or approved elective courses with a cumulative Minimum GPA of 2.50, one may apply for admission to the professional program. The cumulative GPA is calculated using all credits from ASU and from all other colleges and universities attended.

Transfer value of a course, including General Studies value, is governed by the Course Applicability System (CAS) in force at the time the course is taken. Summer session is included with the previous academic year. Community college courses which are equivalent in content to upper division courses at ASU will be transferable as equivalent but with lower division credit. The course need not be repeated but will not count toward the required number of upper division credit hours.

FIRST YEAR COMPOSITION (3-6)

ASU  
ENG 101 & 102 First-Year Comp  
or  
ENG 105 Adv First-Year Comp  
or  
ENG 107 & ENG 108 Eng Foreign Students  

AWC  
ENG 101 & 102 Freshman Composition  
No AWC equivalent  
No AWC equivalent

GENERAL STUDIES REQUIREMENTS 1,2

Students completing the Arizona General Education Curriculum (AGEC) will still be required to fulfill lower division program requirements and prerequisites within their college and major/minor area of study. In all cases, students have the responsibility for selecting general education course work that is relevant to the requirements of their intended major and degree.

Students in Computer Science must complete 18 hours of Humanities [HU] and Social/Behavioral Sciences [SB] courses. One course must be taken at ASU, as it must be upper division. In your selection of HU and SB credits, two courses must be from the same department (or have the same prefix). Select credits from CAS General Studies Insert as follows: 3 L1 credits, 6 or 9 HU credits, 6 or 9 SB credits, 6 credits that meet C, G and H. It is beneficial for students to select HU or SB courses that concurrently satisfy C, G or H requirements. Additional and/or mandated General Studies requirements, if any, are listed in the Major Requirements section below with designation in brackets, e.g. [CS].

EG-13
### MAJOR REQUIREMENTS

**ASU**
- MAT 243  Discrete Math Struct
- MAT 270  Cal/Analytic Geo I [MA]
- MAT 271  Cal/Analytic Geo II [MA]
- MAT 272  Cal/Analytic Geo III [MA]

**AWC**
- MAT 162  Discrete Mathematics *
- MAT 221  Calc I w/ Analytic Geom
- MAT 231  Calc II w/ Analytic Geom
- MAT 241  Analytic Geom & Calc III

**PHY**
- PHY 121  Univ Physics I: Mech [SQ] &
- PHY 122  Univ Physics Lab I [SQ]
- PHY 131  Univ Physics II: Elec & Magntsm [SQ] &
- PHY 132  Univ Physics Lab II [SQ]

**COMPUTER SCIENCE CORE**
- CSE 120  Dig Des Fund
- CSE 210  Object-oriented Design and Data Structure [CS]
- CSE 225  Assemb Lang prog/Microprocessor
- CSE 226  Assemb Lang Prog/Microprocessor
- CSE 240  Intro prog Lang

**Approved by Marilyn L. Hart**
Coordinator, Academic Administration

Date 8/11/00

---

1. Although a course may satisfy a core area requirement and an awareness area requirement concurrently, a course may **not be used to satisfy requirements in two core areas simultaneously**. A course may satisfy two awareness areas concurrently.

2. When selecting HU or SB core courses, students must keep in mind that A. two courses from the same department must be taken in either core area; B. courses from at least two departments must be taken. These two conditions may, but need not be satisfied in the same core area. At least one course within the 18 semester hours **must** be an upper-division course taken only at ASU.
