Arizona State University

ASU Main Campus

FALL 2000 TRANSFER GUIDE

FOR CENTRAL ARIZONA COLLEGE

Bachelor of Science in Engineering

Industrial Engineering

Students applying for admission with transferable hours must meet transfer GPA, freshman aptitude, and competency requirements www.asu.edu/admissions/applyingtoasu. Students transferring 24 or more semester hours do not have to meet freshman aptitude requirements. Students who are 22 years of age or older or have completed an Arizona General Education Curriculum (AGEC) or any associate degree or higher do not have to meet competency requirements. A maximum of 64 transferable semester hours completed at a regionally accredited two-year institution may be transferred to ASU. All transferable community college credits are accepted as lower-division credits and do not satisfy upper division General Studies or graduation requirements.

Industrial Engineers are responsible for the integration of people, material, capital, energy, and equipment into an efficient and productive system. This degree will provide you with the skills necessary to be a leader in helping American organizations retain their global competitiveness. Prospective students may call 480/965-7788 (toll free numbers for applicants: 1-800-252-ASU1 out of state and 1-800-325-9371 in state) or write to the Undergraduate Admissions Office for information including application materials. For further information, call or write:

SCHOOL OF ENGINEERING ADMISSION CRITERIA

1. A minimum of 2.50 cumulative GPA is required from community college transfer students.
2. Students whose native language is not English must also submit a TOEFL score of 550 points in addition to meeting the minimum GPA requirements.
3. Transfer students are encouraged to have completed science and math courses applicable to the engineering degree.
4. A preprofessional category of admission is available for applicants deficient in School of Engineering admission requirements.
5. Students admitted to the preprofessional program are restricted to taking lower-division courses. After completing a minimum of 30 semester hours of required or approved elective courses with a cumulative minimum GPA of 2.50, one may apply for admission to the professional program. The cumulative GPA is calculated using all credits from ASU and from all other colleges and universities attended.

Transfer value of a course, including General Studies value, is governed by the Course Applicability System (CAS) in force at the time the course is taken. Summer session is included with the previous academic year. Community college courses which are equivalent in content to upper division courses at ASU will be transferable as equivalent but with lower division credit. The course need not be repeated but will not count toward the required number of upper division credit hours.

FIRST YEAR COMPOSITION (3-6)

GENERAL STUDIES REQUIREMENTS

Students completing the Arizona General Education Curriculum (AGEC) will still be required to fulfill lower division program requirements and prerequisites within their college and major/minor area of study. In all cases, students have the responsibility for selecting general education coursework that is relevant to the requirements of their intended major and degree.

Students in an engineering program must complete 16 hours of Humanities [HU] and Social/Behavioral Sciences [SB] courses. One course must be taken at ASU, as it must be upper division. In your selection of HU and SB credits, two courses must be from the same department (or have the same prefix). Select credits from CAS General Studies Insert as follows: 6 or 7 HU credits, 6 or 7 SB credits (which must include those that transfer as ECN 111 or ECN 112), 3 C credits, 3 G credits, and 3 H credits. It is beneficial for students to select HU or SB courses that concurrently satisfy C, G or H requirements. Additional and/or mandated General Studies requirements, if any, are listed in the Major Requirements section below with designation in brackets, e.g. [CS].
MAJOR REQUIREMENTS

ASU

CHM 114 General Chemistry for Engineers [SQ]

or

CHM 113 General Chemistry [SQ]

and

CHM 116 General Chemistry [SQ]

CSE 100 Principles of Programming [CS]

ECN 111 Macroeconomic Principles [SB]

or

ECN 112 Microeconomic Principles [SB]

MAT 242 Elementary Linear Algebra

MAT 270 Cal/Analytic Geo I [N1]

MAT 271 Cal/Analytic Geo II [N1]

MAT 272 Cal/Analytic Geo III [N1]

MAT 274 Elem Diff Equations [N1]

PHY 121 Univ Physics I: Mech [SQ] &

PHY 122 Univ Physics Lab I [SQ] &

PHY 131 Univ Physics II: Elec & Magnetsm [SQ] &

PHY 132 Univ Physics Lab II [SQ]

CAC

No CAC equivalent

CHM 101 General Chemistry I

CHM 102 General Chemistry II

CIS 220 C Programming Language

ECN 201 Macroeconomic Principles

ECN 202 Microeconomic Principles

or

GBS 105 Applied Business Econ

No CAC equivalent

MAT 220 Calc/Analyt Geo I

or

MAT 221 Analyt Geom/Calc I &

MAT 230 Calc/Analyt Geo II

or

MAT 231 Analyt Geom/Calc II &

MAT 240 Calc/Analyt Geo III

or

MAT 241 Analyt Geom/Calc III

MAT 262 Ordin Diff Equations

PHY 261 University Phys I &

PHY 262 University Phys II

Approved by Marilyn L. Hart

Coordinator, Academic Administration

Date 8/15/00

1. Although a course may satisfy a core area requirement and an awareness area requirement concurrently, a course may not be used to satisfy requirements in two core areas simultaneously. A course may satisfy two awareness areas concurrently.

2. When selecting HU or SB core courses, students must keep in mind that A. two courses from the same department must be taken in either core area; B. courses from at least two departments must be taken. These two conditions may, but need not be satisfied in the same core area. At least one course within the 16 semester hours must be an upper-division course taken only at ASU.
