Arizona State University
ASU Main Campus
FALL 2000 TRANSFER GUIDE
FOR COCHISE COLLEGE
Bachelor of Science in Engineering
Industrial Engineering

Students applying for admission with transferable hours must meet transfer GPA, freshman aptitude, and competency requirements www.asu.edu/admissions/applyingtoasu. Students transferring 24 or more semester hours do not have to meet freshman aptitude requirements. Students who are 22 years of age or older or have completed an Arizona General Education Curriculum (AGEC) or any associate degree or higher do not have to meet competency requirements. A maximum of 64 transferable semester hours completed at a regionally accredited two-year institution may be transferred to ASU. All transferable community college credits are accepted as lower-division credits and do not satisfy upper division General Studies or graduation requirements.

Industrial Engineers are responsible for the integration of people, material, capital, energy, and equipment into an efficient and productive system. This degree will provide you with the skills necessary to be a leader in helping American organizations retain their global competitiveness. Prospective students may call 480/965-7788 (toll free numbers for applicants: 1-800-252-ASU1 out of state and 1-800-325-9371 in state) or write to the Undergraduate Admissions Office for information including application materials.

SCHOOL OF ENGINEERING ADMISSION CRITERIA
1. A minimum of 2.50 cumulative GPA is required from community college transfer students.
2. Students whose native language is not English must also submit a TOEFL score of 550 points in addition to meeting the minimum GPA requirements.
3. Transfer students are encouraged to have completed science and math courses applicable to the engineering degree.
4. A preprofessional category of admission is available for applicants deficient in School of Engineering admission requirements.
5. Students admitted to the preprofessional program are restricted to taking lower-division courses. After completing a minimum of 30 semester hours of required or approved elective courses with a cumulative minimum GPA of 2.50, one may apply for admission to the professional program. The cumulative GPA is calculated using all credits from ASU and from all other colleges and universities attended.

Transfer value of a course, including General Studies value, is governed by the Course Applicability System (CAS) in force at the time the course is taken. Summer session is included with the previous academic year. Community college courses which are equivalent in content to upper division courses at ASU will be transferable as equivalent but with lower division credit. The course need not be repeated but will not count toward the required number of upper division credit hours.

GENERAL STUDIES REQUIREMENTS 1,2

Students completing the Arizona General Education Curriculum (AGEC) will still be required to fulfill lower division program requirements and prerequisites within their college and major/minor area of study. In all cases, students have the responsibility for selecting general education coursework that is relevant to the requirements of their intended major and degree.

Students in an engineering program must complete 16 hours of Humanities [HU] and Social/Behavioral Sciences [SB] courses. One course must be taken at ASU, as it must be upper division. In your selection of HU and SB credits, two courses must be from the same department (or have the same prefix). Select credits from CAS General Studies Insert as follows: 6 or 7 HU credits, 6 or 7 SB credits (which must include those that transfer as ECN 111 or ECN 112), 3 C credits, 3 G credits, and 3 H credits. It is beneficial for students to select HU or SB courses that concurrently satisfy C, G or H requirements. Additional and/or mandated General Studies requirements, if any, are listed in the Major Requirements section below with designation in brackets, e.g. [CS].
MAJOR REQUIREMENTS

ASU

CHM 114  General Chemistry for Engineers [SQ]  
CHM 113  General Chemistry [SQ]  
and  
CHM 116  General Chemistry [SQ]  
CSE 100  Principles of Programming C++ [CS]  
ECN 111  Macroeconomic Principles [SB]  
or  
ECN 112  Microeconomic Principles [SB]  
MAT 242  Elementary Linear Algebra  
MAT 270  Cal/Analytic Geo I [MA]  
MAT 271  Cal/Analytic Geo II [MA]  
MAT 272  Cal/Analytic Geo III [MA]  
MAT 274  Elem Diff Equations [MA]  
PHY 121  Univ Physics I: Mech [SQ] &  
PHY 122  Univ Physics Lab I [SQ] &  
PHY 131  Univ Physics II:Elec & Magnetism [SQ] &  
PHY 132  Univ Physics Lab II [SQ]  

CC

No CC equivalent  
CHM 151  General Chemistry I  
CHM 152  General Chemistry II  
CIS 204  C Programming  
ECN 201  Principles Macroeconomics  
ECN 202  Principles Microeconomics  
MAT 252  Intro to Linear Algebra *  
MAT 220  Calculus I  
MAT 231  Calculus II  
MAT 241  Calculus III  
MAT 262  Differential Equations  
PHY 230  Physics with Calculus I&  
PHY 231  Physics with Calculus II  

ENGINEERING CORE

ECE 100  Intro Engrg Design [CS]  
No CC equivalent

1. Although a course may satisfy a core area requirement and an awareness area requirement concurrently, a course may not be used to satisfy requirements in two core areas simultaneously. A course may satisfy two awareness areas concurrently.

2. When selecting HU or SB core courses, students must keep in mind that A. two courses from the same department must be taken in either core area; B. courses from at least two departments must be taken. These two conditions may, but need not be satisfied in the same core area. At least one course within the 16 semester hours must be an upper-division course taken only at ASU.
