Arizona State University
ASU Main Campus
FALL 2000 TRANSFER GUIDE
FOR COCONINO COMMUNITY COLLEGE
Bachelor of Science
Construction

Students applying for admission with transferable hours must meet transfer GPA, freshman aptitude, and competency requirements. Students transferring 24 or more semester hours do not have to meet freshman aptitude requirements. Students who are 22 years of age or older or have completed an Arizona General Education Curriculum (AGEC) or any associate degree or higher do not have to meet competency requirements. A maximum of 64 transferable semester hours completed at a regionally accredited two-year institution may be transferred to ASU. All transferable community college credits are accepted as lower-division credits and do not satisfy upper division General Studies or graduation requirements.

Construction students study the numerous factors involved in building a successful project. They will learn such things as the basics of design, what it takes to manage the people, how to estimate and control the costs on a project, the many construction methods used, and the various types of contracts. For further information, call or write:

W.W. Badger, Director
Del E. Webb School of Construction
Arizona State University
Tempe, Arizona 85287-0204

SCHOOL OF CONSTRUCTION ADMISSION CRITERIA
1. A minimum 2.50 GPA is required from resident community college transfer students.
2. A minimum 2.50 GPA is required from nonresident community college transfer students.
3. Transfer students are encouraged to have completed college algebra and trigonometry.
4. A preprofessional category of admission is available for applicants deficient in School of Construction admission requirements.
5. Students admitted to the preprofessional program are restricted to lower-division courses. After completing a minimum of 30 semester hours of required or approved elective courses with a cumulative GPA equivalent to that required of transfer students, one may apply for admission to the professional program. The cumulative GPA is calculated using all credits from ASU and from all other colleges and universities attended.
6. International students must also submit an acceptable TOEFL score in addition to meeting the minimum GPA requirements.

Transfer value of a course, including General Studies value, is governed by the Course Applicability System (CAS) in force at the time the course is taken. Summer session is included with the previous academic year. Community college courses which are equivalent in content to upper division courses at ASU will be Transferable as equivalent but with lower division credit. The course need not be repeated but will not count toward the required number of upper division credit hours.

ASU  
FIRST YEAR COMPOSITION (3-6)  
ENG 101 & 102 First-Year Comp  
or  
ENG 105 Adv First-Year Comp  
or  
ENG 107 & ENG 108 Eng Foreign Students  

CCC  
ENG 101 & 102 College composition I & II  

GENERAL STUDIES REQUIREMENTS
Students completing the Arizona General Education Curriculum (AGEC) will still be required to fulfill lower division program requirements and prerequisites within their college and major/minor area of study. In all cases, students have the responsibility for selecting general education coursework that is relevant to the requirements of their intended major and degree.

Select credits from the ASU General Studies Guides (http://www.asu.edu/provost/articulation/cocon_main.html#gs) as follows: 3 HU credits, 3 credits from either H or C. Additional and/or mandated General Studies requirements, if any, are listed in the Major Requirements section with designation in brackets: 3 C credits, 3 G credits, and 3 H credits.

Approved by Associate Director
Professor Donald E. Mulligan

---

1. When selecting HU or SB core courses, students must keep in mind that 
   A. two courses in one of these two core areas must be in the same department; 
   B. courses from at least two departments must be taken. These two conditions may, but need not be satisfied in the same core area. At least one 
   course within the 15 semester hours must be an upper-division course taken only at ASU.

2. Although a course may satisfy a core area requirement and an awareness area requirement concurrently, a course may not be used to satisfy 
   requirements in two core areas simultaneously. A course may satisfy two awareness areas concurrently.
