Arizona State University

ASU Main Campus
FALL 2000 TRANSFER GUIDE
FOR DINÉ COLLEGE
Bachelor of Science in Planning
Urban Planning

Students applying for admission with transferable hours must meet transfer GPA, freshman aptitude, and competency requirements. Students transferring 24 or more semester hours do not have to meet freshman aptitude requirements. Students who are 22 years of age or older or have completed an Arizona General Education Curriculum (AGEC) or any associate degree or higher do not have to meet competency requirements. A maximum of 64 transferable semester hours completed at a regionally accredited two-year institution may be transferred to ASU. All transferable community college credits are accepted as lower-division credits and do not satisfy upper-division General Studies or graduation requirements.

The Bachelor of Science in Planning prepares students for professional leadership in urban and land-use planning with emphasis on design quality, sustainable development, economic prosperity, social justice, and environmental conservation.

Admission to the upper division in planning is competitive. Students must complete all lower-division requirements, then submit an application and portfolio. At the upper division, studios focus sequentially on site design and planning; planning elements (such as urban design, socio-economic planning, housing, and environmental quality); comprehensive planning; and a final project (which may be an individual project). In addition, BSP coursework may include plan making, urban design, planning law, environmental planning, history of the city, urban geography, environmental economics, environmental impact assessment, urban transportation, professional ethics, research methods, and advanced computing.

Recent BSP graduates have found rewarding careers with both governmental planning agencies and private planning and design firms. A minor in planning is also available for students in majors such as geography, landscape architecture, architecture, and civil engineering. For more information, call or write:

COLLEGE OF ARCHITECTURE AND ENVIRONMENTAL DESIGN (CAED) ADMISSION CRITERIA

1. A minimum GPA of 3.00 is required for admission to the upper division.
2. Admission to the upper division is selective and competitive.
3. Students must submit a portfolio of work from lower-division studio classes.
4. Students in the lower-division curriculum in urban planning must complete that curriculum before applying to the upper division.

ASU

Transfer value of a course, including General Studies value, is governed by the Course Applicability System (CAS) in force at the time the course is taken. Summer session is included with the previous academic year. Community college courses which are equivalent in content to upper-division courses at ASU will be Transferable as equivalent but with lower division credit. The course need not be repeated but will not count toward the required number of upper-division credit hours.

FIRST YEAR COMPOSITION (3-6)

ENG 101 & 102 First-Year Comp
or
ENG 105 Adv First-Year Comp

or

ENG 107 & ENG 108 Eng Foreign Students

ENG 101 & 102 Freshman English I & II

No DC equivalent

GENERAL STUDIES REQUIREMENTS

Students completing the Arizona General Education Curriculum (AGEC) will still be required to fulfill lower division program requirements and prerequisites within their college and major/minor area of study. In all cases, students have the responsibility for selecting general education coursework that is relevant to the requirements of their intended major and degree.

Select credits from the ASU General Studies Guides (http://www.asu.edu/provost/articulation/dine_main.html#gsr) as follows: 3 CS credits, 3 or 9 HU credits, 3 or 9 SB credits, 4 SQ or SG credits, and 3 C credits. Additional and/or mandated General Studies requirements, if any, are listed in the Major Requirements section with designation in brackets.

MAJOR REQUIREMENTS

Contact an ASU advisor regarding the remainder of the Major Requirements.

Anna West

1. Although a course may satisfy a core area requirement and an awareness area requirement concurrently, a course may not be used to satisfy requirements in two core areas simultaneously, even if approved for those areas. A course may satisfy two awareness areas concurrently.

2. When selecting HU or SB core courses, students must keep in mind that at least one course within the 15 semester hours must be an upper-division course taken only at ASU.
