Arizona State University
ASU Main Campus
FALL 2000 TRANSFER GUIDE
FOR EASTERN ARIZONA COLLEGE
Bachelor of Science in Design
Housing and Urban Development

Students applying for admission with transferable hours must meet transfer GPA, freshman aptitude, and competency requirements [www.asu.edu/admissions/applyingtoasu]. Students transferring 24 or more semester hours do not have to meet freshman aptitude requirements. Students who are 22 years of age or older or have completed an Arizona General Education Curriculum (AGEC) or any associate degree or higher do not have to meet competency requirements. A maximum of 64 transferable semester hours completed at a regionally accredited two-year institution may be transferred to ASU. All transferable community college credits are accepted as lower-division credits and do not satisfy upper division General Studies or graduation requirements.

The program leading to the Bachelor of Science in Design with a major in Housing and Urban Development prepares professionals for leadership in the development of high-quality and affordable housing. The program is offered jointly with the College of Extended Education in cooperation with the Del E. Webb School of Construction, the Department of Business Administration, and the Schools of Architecture and Design. Instruction by full-time faculty and leading practitioners is aimed at both non-traditional and traditional students. Students attend evening classes at ASU’s Downtown Center and also participate through distance-learning technology.

BSD-HUD students are admitted competitively to the upper division program. The program provides studio and seminar instruction in residential and community planning, design, and development, combined with actual field exposure to market housing and development as well as public and non-profit community revitalization. Courses include construction management, real estate, accounting, land-development law, ethics, and computers. Graduates may pursue careers in private industry, in public and nonprofit housing and redevelopment, or in postgraduate research and education.

COLLEGE OF ARCHITECTURE AND ENVIRONMENTAL DESIGN (CAED) ADMISSION CRITERIA
1. A minimum GPA of 3.00 is required for admission to the upper division.
2. Admission to the upper division is selective and competitive.
3. Students must submit a portfolio of work from lower division studio classes.
4. Students in the lower-division curriculum in HUD must complete that curriculum before applying to the upper division.

Transfer value of a course, including General Studies value, is governed by the [Course Applicability System (CAS) in force at the time the course is taken]. Summer session is included with the previous academic year. Community college courses which are equivalent in content to upper division courses at ASU will be Transferable as equivalent but with lower division credit. The course need not be repeated but will not count toward the required number of upper division credit hours.

GENERAL STUDIES REQUIREMENTS\textsuperscript{1,2,3}

Students completing the Arizona General Education Curriculum will still be required to fulfill lower division program requirements and prerequisites within their college and major/minor area of study. In all cases, students have the responsibility for selecting general education coursework that is relevant to the requirements of their intended major and degree.

Select credits from the the ASU General Studies Guides (http://www.asu.edu/provost/articulation/eac_main.html#gsr) as follows: 3 CS (computer) credits, 3 CS (statistics) credits, 0 or 3 HU credits, 0 or 3 SB credits, 4 SQ credits, and 3 C credits. Additional and/or mandated General Studies requirements, if any, are listed in the Major Requirements section with designation in brackets.

MAJOR REQUIREMENTS

\textbf{ASU}

- CON 389 Const Cost Acc & Control [CS]
- ECN 111 Macroeconomic Principles [SB]
- ECN 112 Microeconomic Principles [SB]
- GPH 111 Intro to Physical Geography [SQ]
- An approved [SQ] elective
- MAT 117 College Algebra [MA]
- MAT 170 Precalculus [MA]
