Arizona State University  
ASU Main Campus  
FALL 2000 TRANSFER GUIDE  
FOR PIMA COMMUNITY COLLEGE  
Bachelor of Science  
Landscape Architecture  

Students applying for admission with transferable hours must meet transfer GPA, freshman aptitude, and competency requirements. Students transferring 24 or more semester hours do not have to meet freshman aptitude requirements. Students who are 22 years of age or older or have completed an Arizona General Education Curriculum (AGEC) or any associate degree or higher do not have to meet competency requirements. A maximum of 64 transferable semester hours completed at a regionally accredited two-year institution may be transferred to ASU. All transferable community college credits are accepted as lower-division credits and do not satisfy upper-division General Studies or graduation requirements.

The Bachelor of Science in Landscape Architecture degree is a professional degree program preparing students for careers in landscape architecture. Landscape architecture employs knowledge from the arts and sciences to explore reasons for and the techniques involved in shaping the outdoor environment. Large-scale work includes such areas of interest as landscape planning, landscape ecology, and urban design, while medium and smaller-scale work is undertaken in site planning, park and recreation design, and landscape reclamation. In this diverse and changing profession, new and emerging foci include computer applications, biotechnical construction, landscape interpretation, and others. Landscape architects are typically employed by professional design and planning offices in the private sector and at all levels of government.

The BSLA program is an intensive and studio-based program. Admission to the upper division is competitive. Upon completion of the lower-division requirements, students can apply for admission to the upper-division studio sequence. The studios in landscape architecture include reading the landscape, landscape communication, site planning, site design, landscape ecological planning and urban design. A series of courses in history, theory, design, ethics and technology round out the curriculum. Summer programs abroad and international exchange programs with other landscape architecture programs are also available. Students also take courses in related fields such as planning, environmental science and architecture. For more information, call or write:

Tempe, Arizona 85287-1905

COLLEGE OF ARCHITECTURE AND ENVIRONMENTAL DESIGN (CAED) ADMISSION CRITERIA
1. A minimum GPA of 3.00 is required for admission to the upper division.
2. Admission to the upper division is selective and competitive.
3. Students must submit a portfolio of work from lower division studio classes.
4. Students in the lower division curriculum in landscape architecture must complete that curriculum before applying to the upper division.

Transfer value of a course, including General Studies value, is governed by the Course Applicability System (CAS) in force at the time the course is taken. Summer session is included with the previous academic year. Community college courses which are equivalent in content to upper division courses at ASU will be Transferable as equivalent but with lower division credit. The course need not be repeated but will not count toward the required number of upper division credit hours.

GENERAL STUDIES REQUIREMENTS\textsuperscript{1,2}

Students completing the Arizona General Education Curriculum (AGEC) will still be required to fulfill lower division program requirements and prerequisites within their college and major/minor area of study. In all cases, students have the responsibility for selecting general education coursework that is relevant to the requirements of their intended major and degree.

Select credits from the ASU General Studies Guides (http://www.asu.edu/provost/articulation/pima_main.html#gsr) as follows 4 SQ credits, and 3 C credits. Additional and/or mandated General Studies requirements, if any, are listed in the Major Requirements section with designation in brackets.

MAJOR REQUIREMENTS

Contact an ASU advisor regarding the remainder of the Major Requirements.

1 Although a course may satisfy a core area requirement and an awareness area requirement concurrently, a course may not be used to satisfy requirements in two core areas simultaneously. A course may satisfy two awareness areas concurrently.

2 When selecting HU or SB core courses, students must keep in mind that at least one course within the 15 semester hours must be an upper-division course taken only at ASU.
