The Arizona resident applicant for transfer admission must meet competency requirements and have a cumulative grade point average (GPA) of 2.00 on a four-point (A) scale in all college level work and be in good standing and eligible to return to the last institution attended. Students who have less than 24 semester transfer credits must also meet competency requirements. Arizona residents who have completed an Arizona General Education Curriculum (AGEC) or an associate degree with a minimum 2.00 GPA in the AGEC or associate degree are exempt from admission requirements. A maximum of 64 semester credit hours will be accepted when transferred from community colleges; all transferable community college credits are accepted as lower-division credits and do not satisfy upper-division General Studies or graduation requirements.

Industrial Design students learn how to design objects that meet human needs on many different levels. The industrial designer’s contribution places special emphasis on human characteristics, needs, and interests and requires a detailed understanding of visual, tactile, safety, and convenience criteria. The industrial designer combines these considerations with practical concern for technical processes, manufacturing requirements, economics, and marketing, including distribution, sales, and service.

The Bachelor of Science in Design (BSD) degree in Industrial Design requires four years of study. Students must be accepted into the professional program, after fulfilling the pre-professional requirements. The application deadline is April 15 for the following fall semester. Acceptance into the program is quite competitive and is determined by the Industrial Design faculty based on a written application, essay, cumulative GPA, and portfolio.

Graduates of the program accept entry-level positions in industry and firms doing product and packaging design. Designers may focus on consumer products, transportation, electronics, medical devices, health products, recreational products, or materials application. For more information, call or write:

COLLEGE OF ARCHITECTURE AND ENVIRONMENTAL DESIGN (CAED) ADMISSION CRITERIA

1. A minimum GPA of 3.00 is required for admission to the upper division.
2. Admission to the upper division is selective and competitive.
3. Students must submit a portfolio of work from lower division studio classes.
4. Students in the lower division curriculum in industrial design must complete that curriculum before applying to the upper division.

ASU

CAC

Transfer value of a course, including General Studies value, is governed by the Course Equivalency Guide (CEG) in force at the time the course is taken. Summer session is included with the previous academic year. Community college courses which are equivalent in content to upper division courses at ASU will be Transferable as equivalent but with lower division credit. The course need not be repeated but will not count toward the required number of upper division credit hours.

**GENERAL STUDIES REQUIREMENTS**

Students completing the Transfer General Education Core Curriculum (TGECC) will still be required to fulfill lower division program requirements and prerequisites within their college and major/minor area of study. In all cases, students have the responsibility for selecting general education coursework that is relevant to the requirements of their intended major and degree.

Select credits from CEG General Studies Insert as follows: 4 S1/S2 credits and 3 C credits. Additional and/or mandated General Studies requirements, if any, are listed in the Major Requirements section with designation in brackets.

#### MAJOR REQUIREMENTS

Contact an ASU advisor regarding the remainder of the Major Requirements.

- **COM 225**  
  Public Speaking [L1]  
  or  
  An approved [L1] Elective

- **DSC 101**  
  Design Awareness [HU, G]

- **DSC 120**  
  Design Drawing

- **DSC 236**  
  Intro to Computer Modeling [N3]

- **ECN 112**  
  Microeconomic Principles [SB]

- **IND 316**  
  20th C Dsgn I [HU, H]

- **MAT 117**  
  College Algebra [N1]  
  or  
  MAT 150  
  College Algebra/Review

  or  
  MAT 151  
  College Algebra Standard

  or  
  MAT 152  
  College Algebra Acceler

  or  
  MAT 181  
  Trigonometry with Review

  or  
  MAT 182  
  Trigonometry

  or  
  MAT 187  
  Pre Calculus

- **PGS 101**  
  Intro to Psychology [SB]

- **PHY 111**  
  General Physics [S1/S2] &

- **PHY 113**  
  General Physics Lab [S1/S2]

1. Although a course may satisfy a core area requirement and an awareness area requirement concurrently, a course may **not** be used to satisfy requirements in two core areas simultaneously, even if approved for those areas. A course may satisfy two awareness areas concurrently.

2. When selecting HU or SB core courses, students must keep in mind that A. two courses in one of these two core areas must be in the same department; B. courses from at least two departments must be taken. These two conditions may, but need not be satisfied in the same core area. At least one course within the 15 semester hours **must** be an upper-division course taken only at ASU.
