The Arizona resident applicant for transfer admission must meet competency requirements and have a cumulative grade point average (GPA) of 2.00 on a four-point (A) scale in all college level work and be in good standing and eligible to return to the last institution attended. Students who have less than 24 semester transfer credits must also meet competency requirements. Arizona residents who have completed an Arizona General Education Curriculum (AGEC) or an associate degree with a minimum 2.00 GPA in the AGEC or associate degree are exempt from admission requirements. A maximum of 64 semester credit hours will be accepted when transferred from community colleges; all transferable community college credits are accepted as lower-division credits and do not satisfy upper-division General Studies or graduation requirements.

**Mechanical Engineering** is a creative discipline that draws upon a number of basic sciences to design the devices, machines, processes, and systems that involve mechanical work and its conversion from, and into, various forms of energy. The undergraduate curriculum includes the study of principles governing the use of energy; principles of design, instruments, and control devices; and the application of these studies to the creative solution of practical, modern problems. Prospective students may call 602/965-7788 (toll free numbers for applicants: 1-800-252-ASU 1 out of state and 1-800-325-9371 in state) or write to the Undergraduate Admissions Office for information including application materials. For further information, call (602) 965-3291.

**SCHOOL OF ENGINEERING ADMISSION CRITERIA**

1. A minimum of 2.50 cumulative GPA is required from community college transfer students.
2. International students must also submit a TOEFL score of 550 points in addition to meeting the minimum GPA requirements.
3. Transfer students are encouraged to have completed science and math courses applicable to the engineering degree.
4. A preprofessional category of admission is available for applicants deficient in School of Engineering admission requirements.
5. Students admitted to the preprofessional program are restricted to lower-division courses. After completing a minimum of 30 semester hours of required or approved elective courses with a cumulative GPA equivalent to that required of transfer students, one may apply for admission to the professional program. The cumulative GPA is calculated using all credits from ASU and from all other colleges and universities attended.

**ASU**

Transfer value of a course, including General Studies value, is governed by the Course Equivalency Guide (CEG) in force at the time the course is taken. Summer session is included with the previous academic year. Community college courses which are equivalent in content to upper division courses at ASU will be transferable as equivalent but with lower division credit. The course need not be repeated but will not count toward the required number of upper division credit hours.

**CAC**

**FIRST YEAR COMPOSITION (3-6)**

GENERAL STUDIES REQUIREMENTS

Students completing the Transfer General Education Core Curriculum (TGECC) will still be required to fulfill lower division program requirements and prerequisites within their college and major/minor area of study. In all cases, students have the responsibility for selecting general education coursework that is relevant to the requirements of their intended major and degree.

Students in an engineering program must complete 16 hours of Humanities [HU] and Social/Behavioral Sciences [SB] courses. One course must be taken at ASU, as it must be upper division. In your selection of HU and SB credits, two courses must be from the same department (or have the same prefix). Select credits from CEG General Studies Insert as follows: 6 or 7 HU credits, 6 or 7 SB credits (which must include those that transfer as ECN 111 or ECN 112), 3 C credits, 3 G credits, and 3 H credits. It is beneficial for students to select HU or SB courses that concurrently satisfy C, G or H requirements. Additional and/or mandated General Studies requirements, if any, are listed in the Major Requirements section below with designation in brackets, e.g. [N3].

MAJOR REQUIREMENTS

CHM 114  General Chemistry for Engineers [S1/S2]
or
CHM 113  General Chemistry [S1/S2]
and
CHM 116  General Chemistry [S1/S2]
ECN 111  Macroeconomic Principles [SB]
or
ECN 112  Microeconomic Principles [SB]

MAT 242  Elementary Linear Algebra

MAT 270  Cal/Analytic Geo I [N1] &

MAT 271  Cal/Analytic Geo II [N1] &

MAT 272  Cal/Analytic Geo III [N1] &

MAT 274  Elem Diff Equations [N1]

PHY 121  Univ Physics I: Mech [S1/S2] &
PHY 122  Univ Physics Lab I [S1/S2] &
PHY 131  Univ Physics II: Elec and Magnetism [S1/S2] &
PHY 132  Univ Physics Lab II [S1/S2]

ENGINEERING CORE

ECE 100  Intro Engrg Design [N3]
ECE 210  Engr Mech I:Statics
ECE 312  Engr Mech II:Dynamic

No CAC equivalent

ASU   CAC

CHM 101  General Chemistry I
CHM 102  General Chemistry II
ECN 201  Macroeconomic Principles
ECN 202  Microeconomic Principles
GBS 105  Applied Business Econ

MAT 220  Calc/Analyt Geo I
or
MAT 221  Analyt Geom /Calc I &
MAT 230  Calc/Analyt Geo II
or
MAT 231  Analyt Geom/Calc II &
MAT 240  Calc/Analyt Geo III
or
MAT 241  Analyt Geom/Calc III

MAT 262  Ordin Diff Equations

PHY 261  University Phys I &
PHY 262  University Phys II

No CAC equivalent

EGR 202  Eng Mechan/Statics
EGR 203  Eng Mech/Dynamics *

* Students must earn a grade of A or B for transfer of credit.
1. Although a course may satisfy a core area requirement and an awareness area requirement concurrently, a course may **not** be used to satisfy requirements in two core areas simultaneously. A course may satisfy two awareness areas concurrently.

2. When selecting HU or SB core courses, students must keep in mind that A. two courses from the same department must be taken in either core area; B. courses from at least two departments must be taken. These two conditions may, but need not be satisfied in the same core area. At least one course within the 16 semester hours **must** be an upper-division course taken only at ASU.
