The Arizona resident applicant for transfer admission must meet competency requirements and have a cumulative grade point average (GPA) of 2.00 on a four-point (A) scale in all college level work and be in good standing and eligible to return to the last institution attended. Students who have less than 24 semester transfer credits must also meet competency requirements. Arizona residents who have completed an Arizona General Education Curriculum (AGEC) or an associate degree with a minimum 2.00 GPA in the AGEC or associate degree are exempt from admission requirements. A maximum of 64 semester credit hours will be accepted when transferred from community colleges; all transferable community college credits are accepted as lower-division credits and do not satisfy upper-division General Studies or graduation requirements.

Bioengineering (synonym: biomedical engineering) is the discipline of engineering that applies principles and methods from engineering, the physical sciences, the life sciences, and the medical sciences to understand, define, and solve problems in medicine, physiology, and biology. For further information, call or write:

(602) 965-3313
Department of Chemical, Bio and Materials Engineering
College of Engineering and Applied Sciences
Arizona State University
Tempe, Arizona  85287-6006

SCHOOL OF ENGINEERING ADMISSION CRITERIA
1. A minimum of 2.50 cumulative GPA is required from community college transfer students.
2. International students must also submit a TOEFL score of 550 points in addition to meeting the minimum GPA requirements.
3. Transfer students are encouraged to have completed science and math courses applicable to the engineering degree.
4. A preprofessional category of admission is available for applicants deficient in School of Engineering admission requirements.
5. Students admitted to the preprofessional program are restricted to lower-division courses. After completing a minimum of 30 semester hours of required or approved elective courses with a cumulative GPA equivalent to that required of transfer students, one may apply for admission to the professional program. The cumulative GPA is calculated using all credits from ASU and from all other colleges and universities attended.

Transfer value of a course, including General Studies value, is governed by the Course Equivalency Guide (CEG) in force at the time the course is taken. Summer session is included with the previous academic year. Community college courses which are equivalent in content to upper division courses at ASU will be transferable as equivalent but with lower division credit. The course need not be repeated but will not count toward the required number of upper division credit hours.

FIRST YEAR COMPOSITION (3-6)

ASU
ENG 101 & 102 First-Year Comp
or
ENG 105 Adv First-Year Comp
or
ENG 107 & 108 Eng Foreign Students

PCC
WRT 101 & 102 Writing I & II
or
No PCC equivalent
or
WRT 107 & 108 Writing I & II/Intnatl Stu
GENERAL STUDIES REQUIREMENTS\(^1,2\)

Students completing the Transfer General Education Core Curriculum (TGECC) will still be required to fulfill lower division program requirements and prerequisites within their college and major/minor area of study. In all cases, students have the responsibility for selecting general education coursework that is relevant to the requirements of their intended major and degree.

Students in an engineering program must complete 16 hours of Humanities [HU] and Social/Behavioral Sciences [SB] courses. One course must be taken at ASU, as it must be upper division. In your selection of HU and SB credits, two courses must be from the same department (or have the same prefix). Select credits from CEG General Studies Insert as follows: 6 or 7 HU credits, 6 or 7 SB credits (which must include those that transfer as ECN 111 or ECN 112), 3 C credits, 3 G credits, and 3 H credits. It is beneficial for students to select HU or SB courses that concurrently satisfy C, G or H requirements. Additional and/or mandated General Studies requirements, if any, are listed in the Major Requirements section below with designation in brackets, e.g. [N3].

### ASU

| Course Code | Course Title                        | Major/Program | PCC
|-------------|-------------------------------------|---------------|---
| BIO 181     | General Biology [S1/S2]             | BIO 181       | General Bio (Majors) I
| CHM 113     | General Chemistry [S1/S2]           | CHM 151       | General Chemistry I
| CHM 116     | General Chemistry [S1/S2]           | CHM 152       | General Chemistry II
| ECN 111     | Macroeconomic Principles [SB]       | ECN 202       | Macroeconomic Principles
| or          |                                    |                |     
| ECN 112     | Microeconomic Principles [SB]       | ECN 201       | Microeconomic Principles
| MAT 242     | Elementary Linear Algebra           | MAT 252       | Intro to Linear Algebra
| MAT 270     | Cal/Analytic Geo I [N1]             | MAT 220       | Calculus I
| MAT 271     | Cal/Analytic Geo II [N1]            | MAT 231       | Calculus II
| MAT 272     | Cal/Analytic Geo III [N1]           | MAT 241       | Calculus III
| MAT 274     | Elem Diff Equations [N1]            | MAT 262       | Differential Equations
| PHY 121     | Univ Physics I:Mech [S1/S2] &       | PHY 210       | Introductory Mechanics
| PHY 122     | Univ Physics Lab I [S1/S2]          |                |     
| PHY 131     | Univ Physics II:Elec and Magnetism [S1/S2] & | PHY 216       | Intro Elect & Magnetism
| PHY 132     | Univ Physics Lab II [S1/S2]         |                |

\(^{1,2}\) Students completing the TGECC will still be required to fulfill lower division program requirements and prerequisites within their college and major/minor area of study. In all cases, students have the responsibility for selecting general education coursework that is relevant to the requirements of their intended major and degree.
1. Although a course may satisfy a core area requirement and an awareness area requirement concurrently, a course may not be used to satisfy requirements in two core areas simultaneously. A course may satisfy two awareness areas concurrently.

2. When selecting HU or SB core courses, students must keep in mind that A. two courses from the same department must be taken in either core area; B. courses from at least two departments must be taken. These two conditions may, but need not be satisfied in the same core area. At least one course within the 16 semester hours must be an upper-division course taken only at ASU.
