Arizona State University
ASU Main Campus
1999-2000 TRANSFER GUIDE
FOR ARIZONA WESTERN COLLEGE
Bachelor of Science in Design
Architectural Studies/Option A and B

The Arizona resident applicant for transfer admission must meet competency requirements and have a cumulative grade point average (GPA) of 2.00 on a four-point (A) scale in all college level work and be in good standing and eligible to return to the last institution attended. Students who have less than 24 semester transfer credits must also meet competency requirements. Arizona residents who have completed an Arizona General Education Curriculum (AGEC) or an associate degree with a minimum 2.00 GPA in the AGEC or associate degree are exempt from admission requirements. A maximum of 64 semester credit hours will be accepted when transferred from community colleges; all transferable community college credits are accepted as lower-division credits and do not satisfy upper-division General Studies or graduation requirements.

The undergraduate architecture program at ASU offers an integrated curriculum of professional courses and focuses on the design laboratory. The four-year program is designed to create a deep awareness and knowledge of the discipline of architecture and of the world of ideas and values that affect the creative practice of architecture. Through scholarship, teaching, research, design, and community service, it seeks to develop the discipline and the knowledge necessary to address the important environmental and design issues faced by society.

Admission to the first two years (the lower division) of the B.S.D. program is open to all ASU undergraduates (and accepted transfer students) who select Architectural Studies as a major. Students must apply for admission to the second two years of the program (the upper division). Acceptance is based on a competitive review of the student=s academic record and professional promise and a portfolio of creative work.

Students who successfully complete the upper-division requirements receive the Bachelor of Science in Design degree with a major in Architectural Studies. This is not a professional degree. To complete the professional architecture program, students must attain the NAAB-accredited Master of Architecture degree. For more information, call or write:

COLLEGE OF ARCHITECTURE AND ENVIRONMENTAL DESIGN (CAED) ADMISSION CRITERIA
1. A minimum GPA of 3.00 is required for admission to the upper division.
2. Admission to the upper division is selective and competitive.
3. Students must submit a portfolio of work from lower division studio classes.
4. Students in the lower-division curriculum in architecture must complete that curriculum before applying to the upper division.

ASU

Transfer value of a course, including General Studies value, is governed by the Course Equivalency Guide (CEG) in force at the time the course is taken. Summer session is included with the previous academic year. Community college courses which are equivalent in content to upper division courses at ASU will be Transferable as equivalent but with lower division credit. The course need not be repeated but will not count toward the required number of upper division credit hours.

GENERAL STUDIES REQUIREMENTS\textsuperscript{1,2}

Students completing the Arizona General Education Curriculum (AGEC) will still be required to fulfill lower division program requirements and prerequisites within their college and major/minor area of study. In all cases, students have the responsibility for selecting general education coursework that is relevant to the requirements of their intended major and degree.

Select credits from CEG General Studies Insert as follows: 3 SB credits; and 3 C credits. Additional and/or mandated General Studies requirements, if any, are listed in the Major Requirements section with designation in brackets.

ASU

MAJOR REQUIREMENTS

Contact an ASU advisor regarding the remainder of the Major Requirements.

APH 100 Intro Envir Design I [HU, G, H] No AWC equivalent
APH 200 Intro to Architecture [HU, G] No AWC equivalent
ECN 112 Microeconomic Principles [SB] ECN 250 Princ of Microeconomics

OPTION A ONLY

ANP 236 Intro to Computer Modeling [N3] No AWC equivalent
MAT 170 Precalculus [N1] (if needed) MAT 187 Precalc
MAT 210 Brief Calculus [N1] MAT 212 Elements of Calculus
PHI 103 Prin Sound Reasoning [L1/HU] PHI 103 Introduction to Logic*
*AWC’s PHI 103 does not satisfy [L1] requirements.
Or
An approved [L1] elective
or
An approved [L1] from the current CEG

PHY 111 General Physics [S1/S2] & PHY 112 General Physics [S1/S2] & PHY 114 General Physics Lab [S1/S2]
PHY 113 General Physics Lab [S1/S2] PHY 201 College Physics
PHY 121 Univ Physics I:Mech [S1/S2] & PHY 122 Univ Physics Lab I [S1/S2] PHY 202 College Physics
PHY 131 Univ Physics II:Elec & Magnets [S1/S2] & PHY 132 Univ Physics Lab II [S1/S2]

OPTION B ONLY

ECE 100 Intro to Engineering Design [N3] EGR 197 Engineering Design: Introduction
ECE 210 Eng Mech I: Statics EGR 251 Appl Mech Statics
MAT 270 Calc w/Analytic Geom I [N1] MAT 221 Calc I w/Analytic Geom
MAT 271 Calc w/Analytic Geom II [N1] MAT 231 Calc II w/Analytic Geom
MAT 272 Calc w/Analytic Geom III [N1] MAT 241 Analytic Geom & Calc III

1. Although a course may satisfy a core area requirement and an awareness area requirement concurrently, a course may not be used to satisfy requirements in two core areas simultaneously, even if approved for those areas. A course may satisfy two awareness areas concurrently.
2. When selecting HU or SB core courses, students must keep in mind that A. two courses in one of these two core areas must be in the same department; B. courses from at least two departments must be taken. These two conditions may, but need not be satisfied in the same core area. At least one course within the 15 semester hours must be an upper-division course taken only at ASU.
