Arizona State University
ASU Main Campus
1999-2000 TRANSFER GUIDE
FOR COCONINO COMMUNITY COLLEGE
Bachelor of Science
Landscape Architecture

The Arizona resident applicant for transfer admission must meet competency requirements and have a cumulative grade point average (GPA) of 2.00 on a four-point (A) scale in all college level work and be in good standing and eligible to return to the last institution attended. Students who have less than 24 semester transfer credits must also meet competency requirements. Arizona residents who have completed an Arizona General Education Curriculum (AGEC) or an associate degree with a minimum 2.00 GPA in the AGEC or associate degree are exempt from admission requirements. A maximum of 64 semester credit hours will be accepted when transferred from community colleges; all transferable community college credits are accepted as lower-division credits and do not satisfy upper-division General Studies or graduation requirements.

The Bachelor of Science in Landscape Architecture degree is a professional degree program preparing students for careers in landscape architecture. Landscape architecture employs knowledge from the arts and sciences to explore reasons for and the techniques involved in shaping the outdoor environment. Large-scale work includes such areas of interest as landscape planning, landscape ecology, and urban design, while medium and smaller-scale work is undertaken in site planning, park and recreation design, and landscape reclamation. In this diverse and changing profession, new and emerging foci include computer applications, biotechnical construction, landscape interpretation, and others. Landscape architects are typically employed by professional design and planning offices in the private sector and at all levels of government.

The BSLA program is an intensive and studio-based program. Admission to the upper division is competitive. Upon completion of the lower-division requirements, students can apply for admission to the upper-division studio sequence. The studios in landscape architecture include reading the landscape, landscape communication, site planning, site design, landscape ecological planning and urban design. A series of courses in history, theory, design, ethics and technology round out the curriculum. Summer programs abroad and international exchange programs with other landscape architecture programs are also available. Students also take courses in related fields such as planning, environmental science and architecture. For more information, call or write:

Tempe, Arizona  85287-1905

COLLEGE OF ARCHITECTURE AND ENVIRONMENTAL DESIGN (CAED) ADMISSION CRITERIA
1. A minimum GPA of 3.00 is required for admission to the upper division.
2. Admission to the upper division is selective and competitive.
3. Students must submit a portfolio of work from lower division studio classes.
4. Students in the lower division curriculum in landscape architecture must complete that curriculum before applying to the upper division.

ASU
CCC
Transfer value of a course, including General Studies value, is governed by the Course Equivalency Guide (CEG) in force at the time the course is taken. Summer session is included with the previous academic year. Community college courses which are equivalent in content to upper division courses at ASU will be Transferable as equivalent but with lower division credit. The course need not be repeated but will not count toward the required number of upper division credit hours.

GENERAL STUDIES REQUIREMENTS\(^{1,2}\)

Students completing the Arizona General Education Curriculum (AGEC) will still be required to fulfill lower division program requirements and prerequisites within their college and major/minor area of study. In all cases, students have the responsibility for selecting general education coursework that is relevant to the requirements of their intended major and degree.

Select credits from CEG General Studies Insert as follows: 3 N2 credits; 3 SB credits; 4 S1/S2 credits; 3 C credits and 3 G credits. Additional and/or mandated General Studies requirements, if any, are listed in the Major Requirements section with designation in brackets.

1. Although a course may satisfy a core area requirement and an awareness area requirement concurrently, a course may not be used to satisfy requirements in two core areas simultaneously, even if approved for those areas. A course may satisfy two awareness areas concurrently.

2. When selecting HU or SB core courses, students must keep in mind that A. two courses in one of these two core areas must be in the same department; B. courses from at least two departments must be taken. These two conditions may, but need not be satisfied in the same core area. At least one course within the 15 semester hours must be an upper-division course taken only at ASU.
