September 12, 2019

ARIZONA STATE UNIVERSITY

ADDENDUM 2
RFP 342002 Warehouse Logistics Consulting Services

Please note the following answers to questions that were asked prior to the deadline for inquiries date of 09/18/19 at 3:00 P.M., MST.

Q1: Section V – “Floor Layout” – Does the “strategic placement of racks” include the sizing and number of racks required?
A1: Yes

Q2: If so, is there a requirement for product analysis to determine storage space requirements for racks using H, W and L and weight of the products?
A2: Yes, the consultant should understand ASU’s current state in order to provide recommendations on racks and placement. However, the consultant should understand that current state does not necessarily dictate what the end result will be since ASU is shifting to a more centralized model.

Q3: Also, is there a requirement to economic quantity reorder point analysis? (e.g., how much product should be kept on hand to meet demand in alignment with lead time for replenishment)
A3: Replenishable inventory is a minor factor in the overall scope of the warehouse so these factors need not be included.

Q4: Is an AutoCad drawing required as part of the layout plan?
A4: Yes.

Please remember that Proposals are to be mailed or delivered to Arizona State University Purchasing and Business Services 1551 S. Rural Rd. Tempe, AZ 85281, no later than 3:00 P.M., MST, 09/27/19.
